MR. TILLMAN TALKED

And the Big Convention Hissed Several Times.

HILL MADE A VERY LONG SPEECH

He Wanted Them to Say Something About Bimetallism in the Platform—A Rousing Time in Chicago—Great Excitement and Lots of Cheering—No Ballot Today.

CONVENTION HALL, CHICAGO, July 9.—(Special.)—True to their promise the Democrats have been industriously manufacturing history, and last night was an important one for the silver people. They know they are in the majority, but they have a dread of something about to happen. Realizing the experience of the gold leaders, they fear a bomb will be exploded at the right moment, and they will lose a portion of the advantage already gained. They need not think on this line, for those men of the east who talked fight the other day are gradually awakening to the fact that there are too many silver advocates for them to secure even the core of the convention apple. As the small boy would put it, "there won't be no core."

The day opened cloudy and cool, and the weather men say there will be rain other than votes before night comes to shut out from view the most noisy political gathering ever known in Chicago.

The text of the platform was published this morning, and only differs in a few minor points from that given in the NEWS REVIEW yesterday afternoon. It had been decided that three hours will be given over to the discussion of the document, and around the New York headquarters they say that Hill will occupy at least half an hour of that time. Another rumor says that the gold men will sit quietly by and take no part in the proceedings if the platform is adopted in its present condition. Some delegates, as individuals, may walk out of the convention, but it now appears certain that there will be no general bolt. Efforts are being made to reach a ballot tonight, but it is thought that the actions of the gold men will intervene to delay a nomination.

There are predictions and predictions about the nominee, but the morning papers are almost unanimous in saying that Bland has the call, and at present his chances are best. It is claimed that the key to the situation is held by Alabama, Georgia, Mississippi and North Carolina. Georgia just now favors Bland, although several of the delegates are strong for Teller, and will vote for him if opportunity offers. Chairman White is freely quoted as saying that the struggle will likely be a lengthy one.

It is now after 10:45 and the delegates are coming in slowly. It will be some time before the convention is called to order, and the vast audience amuses itself by cheering prominent men as they appear on the floor or platform. It is now whispered around that the committee on resolutions have added a plank antagonistic to the A. P. A., and adopted a resolution commending civil and religious liberty to every citizen. A Boies banner was raised a few minutes ago, and was loudly cheered from every quarter of the hall. It is claimed that John R. McLean will have 60 votes on the first ballot.

And now the convention is at work. The platform is being read, cheers greeting some of the more important points, but the enthusiasm is not marked. A minority report will be read after a while in which strong exception will be taken to the free coinage of silver, and President Cleveland will be highly flattered. Senator Jones announces that each side will be given an hour and 20 minutes for debate, and the clerk begins to read the minority report.

When this was done Senator Tillman began to make amendments. He is then given time to talk, and begins in a characteristic manner. He refers to the way the "lying newspapers" have mis-

represented him as the pitchfork man, and is saluted with cheers and laughter. He professes to come from the land of secession, and hisses are heard all over the house, which he rebukes as an insult to South Carolina. "We are to inaugurate a war to liberate the white slaves," he says, and there is more cheering, but when he announces that he cannot say whether he represents the whole south there are cries of no and much confusion. "We have been hewers of wood and drawers of water in bondage to the states of New York, New Jersey and Connecticut," shrieks Tillman. "This is a sectional issue" (hisses.) "That is a fact, and you cannot change it by hissing. Did New York and Pennsylvania get us a great increase in wealth during the last decade? No, but they increased in wealth more than 25 of the western and southern states combined. The south has no angry feeling of resentment for the wrongs it has suffered." At this moment the galleries call time, and the speech is interrupted, but the speaker will not cease. He says that sectionalism exists between the people and the money oligarchy of the east. He asks where is the New York leader now, and there are cries from the galleries that he is "in the soup." Someone shouts the name of Herr Most, and there is so much laughter that the chairman raps for order. He cannot quiet the excited throng who now shout for Hill. Tillman declares he will have his say if he has to stand there until sundown, and the crowd become quiet enough to hear him say that Hill will follow. He tried yesterday to have him go up in front, but he refused. Then he refers to Cleveland, and there are cheers. "To endorse Cleveland would be to write ourselves down as liars. Cleveland had the courage to override his oath and invade Illinois with troops. He has been the death of the Democratic party so far as he could be. John Sherman, Cleveland and Republicanism go very well together. We are now engaged in an effort to restore the liberty of our fathers, and we must have the Populists and bimetallists endorse our platform and nominees or they are beaten and disgraced in November. We have repudiated sin and the platform, but have not named the sinner. The issuing of bonds in time of peace is a usurpation of authority, and should be punished by impeachment." As Tillman concluded his speech a delegate from Maine endeavored to ask a question, but he was howled down. The South Carolina man was cheered and hissed by turns as he spoke, but he would not sit down, and evidently said just what he had intended.

Senator Jones, of Arkansas, begins his speech in favor of the majority report by declaring that it is not a sectional question, and then speaks at length on the platform. He gives way to Senator Hill who ascends the stage amid enthusiastic cheers. His first sentences arouse the crowd, and he speaks well. He touches upon the sectional claim by asking "when men are coming over to this great question from all nations, how in God's name can any one claim it." Then the crowd begins to cheer and applaud again, the senator standing on the platform, and calmly waiting until it is quiet enough for him to speak. The chairman endeavors to restore order, but the cheering breaks out afresh, three rousing cheers being given for Hill. Chairman Harritt instructs the sergeant-at-arms to quiet the crowd, and Hill is endeavoring to make himself heard. At length quiet is restored, and he says that if he is to follow South Carolina he would say he is a Democrat, but he is not a mugwump. His mission is to unite, and not divide, and he wants to be heard for his cause. New York, he says, is the Gibraltar of Democracy, and this financial matter is not a question of patriotism, but of business. The convention should go no farther than to declare for international bimetallism, and they might as well do away with all national treaties as to act as one. The convention, he thinks, in launching the plat-

WE CAN'T MAKE IT PAY

More Light on the Matter of a Municipal Plant.

ELECTRICAL ENGINEER'S VIEW

One of the Highest Authorities Deems the Movement Unwise and Extravagant. Reasons For Failure of the Plan in Other Cities—Chicago Paid Dearly.

EDITOR NEWS REVIEW.—While council failed to consider the matter of a municipal light plant at the meeting that was to have been held on Tuesday evening, the movement, I hear, is not dead, and will appear again at the regular meeting next week.

As a taxpayer I look upon it as my duty to place before the public what information on this line I can find, and endeavor to show the fallacy of a municipality entering the business of making light. It is expensive and costly, and the towns that have tried it invariably come out at the little end of the horn. The best authorities in the country proclaim against the movement as unwise and unworthy serious consideration, condemning it as an extravagant act rather than commending it as a stroke of economy. Those cities where the system has been in use are willing and anxious to bear testimony of their costly experience, and the Electrical Engineer has found some evidence in this direction. In the issue of July 1 can be found this editorial:

"A number of cities have found it to be their best policy to sell out their municipal plants, and allow the business to revert to private management. Among the cities that have passed through this experience are Greenville, S. C., Carrollton, Ga., Stockton, Kansas, Lyons, Ia., Marceline, Mo., Marietta, O., Michigan City, Ind., Portland, Ore., Tipton, Ia., Titusville, Pa., and Moline, Ill. The city of Chicago furnishes an example of the cost of electric lighting under municipal management. The cost per arc lamp per year was found after careful study to be \$153.48, exclusive of taxes and insurance. A test of the value of this plant to the city lies in the fact that private companies are ready to contract to furnish the same amount of lighting at considerably less cost to the city than it can produce from its own plant. Another municipal plant which has been prominently mentioned as an example of the benefits of municipal ownership is that of the city of Detroit, Mich. In this case the plant was estimated to cost \$600,000, and the cost per lamp per year \$84.00. In addition to the issue of \$600,000 of city bonds, \$50,000 additional was required to be raised by direct taxation to complete the plant, and the annual cost per lamp already reaches \$100, with a new plant in perfect order."

How can East Liverpool seriously consider a municipal light plant with such glaring evidence of failure in other towns and cities staring council fair in the face? How can the average taxpayer, not the wealthy man but he who owns no more than his home, look upon the movement without a protest? How can they expect this place to successfully accomplish what so many have attempted and in which dozens have signally failed? The experiment would be costly indeed. It has been so in towns where astute and shrewd men have been at the head of the movement. They were anxious for success, but unfortunately they failed, and the burden is upon the people who were taught to believe they would be benefited.

From the examination of such data as I can gather I find that failure comes as a rule from three causes. The cost of the plant is invariably in excess of the expectations; light can not be made as cheaply as by a private company; the municipal plant fails to give good service, and the people will not patronize it. These causes, together with a prodigious amount of dissatisfaction, make up the history of municipal plants. People will not patronize a failure in light any more than in any other line, and the result is the loss of customers, and consequently loss to the taxpayer. No body makes anything from the investment beyond the company installing the plant and the men employed. As a rule they have an unusually profitable time of it, and the taxpayer, ignorant of the real cost, and expecting much more than he is given, pays the bill. Perhaps the day will come when a city can, with profit to its people, engage in making its own light, but that day is not here, and until it does come East Liverpool can not afford to try so costly an experiment.

TAXPAYER.

The Street Railway People are Going in to Win.

In spite of expectations the suit of the

county commissioners against the street railway company has not yet been listed for trial, but it will be heard in the very near future. The claim of the company is that the road is in no worse condition than when the track was put down, but on the other hand there is a better grade and the road would be an improvement over what it was if the track was removed. The company proposes to fight the suit to the end, and will be materially assisted by a large number of business men from this city and Wells-ville.

THE POLE BROKE.

And David McLane Now Has a Broken Arm.

David McLane broke his arm yesterday afternoon. In company with a number of Young Men's Christian Association boys he was practicing pole vaulting, at their grounds on Thompson's hill, getting in condition for the state pentathlon contest. He had jumped and was crossing the rope when the pole snapped in two, throwing him to the ground, a distance of six or seven feet. He alighted on all fours in the sawdust, but his weight was thrown on his right arm, with the result that his arm was broken above the wrist. He was taken to a physician at once, and the fracture reduced. The accident was due to a faulty pole, but it is through no fault of anyone here, as the pole was secured from a company who have the reputation of making the best poles of this kind in the country. McLane will not be able to practice for a long time, and his injury will considerably hamper the team at the state contest. He was considered one of their best men. It is not yet known who will be secured to take his place on the team.

LOST HIS BICYCLE.

William Mitcheson Had Some Experience in a Flood.

William Mitcheson arrived home last night from fifteen. Mr. Mitcheson was in the cloud burst which occurred at that place two weeks ago, but luckily the people he was visiting did not have their house washed away although their store was washed down stream. He says it was the most fearful sight he ever witnessed, and has no desire to go through it again. His bicycle and a new coat were in the store, and both were lost. The next morning he found his bicycle had lodged on a sand bar, and he dug it out with a mattock, but it will take several dollars to repair the machine as it was badly damaged. The coat he didn't look for.

CALLING A PASTOR.

The M. P. Congregation Will Decide Next Sunday.

The congregation of the Methodist Protestant church held a meeting last night, but did not elect the successor to Rev. R. B. Whitehead. The place has been offered to Reverend Morris, of the Fourth church, Pittsburg, and he was notified by telegraph. He has already entered into negotiations with his own church, and as the matter was referred to a committee it is expected that nothing will be known until the end of the week. The new pastor will be elected at the meeting on Sunday morning.

BOOMING ROBERTS.

Some Democrats Want Him For a Congressional Candidate.

W. W. Roberts, who was for some time editor of the Alliance Critic, but is now connected with a Youngstown paper, is being boomed for congress. The Democrats realize that an effort to carry this district is a forlorn hope, and almost anyone will answer for a candidate. Not one of the party leaders in the district has signified a desire for the place, and it may go begging if the Youngstown editor fails to snatch the opportunity for greatness, and become a candidate.

BRICKS IN A KILN.

There Are Many More Than You Ever Imagined.

Although it seems incredible, 50,000 bricks are used in the construction of an ordinary sized biscuit kiln, the dimensions of which are 16 feet and six inches in diameter and 50 feet in height. In the erection of a kiln extreme care and caution is necessary in order that the draught arrangements may not prove faulty. Kiln builders have not been very busy this season, but anticipate plenty to do during the next year.

SHOT THE DOG.

It Had Been Run Over and Was in Misery.

While driving to camp Tuesday a valuable Beagle hound owned by Joseph Barlow, jumped out of the carriage and was run over. The wheels passed over the dog, and broke its back. The unfortunate animal was in the throes of death, and to end its misery it was dispatched with a bullet fired from a rifle.

THEIR WORK IS DONE

The Brotherhood Convention Closed Last Evening.

AL. S. HUGHES IS STILL PRESIDENT

East Liverpool Got All the Offices With the Exception of the Vice-Presidency. They Refuse to Talk About the Uniform Scale—A Social Last Night.

The Brotherhood convention came to an end last evening, and some of the delegates have already returned to their homes.

Business of a private character, and not intended for the public ear, was transacted at the session yesterday afternoon. There was any quantity of it, and the time was faithfully occupied. The election of officers followed, with this result: A. S. Hughes, president; Jesse Jackson, vice president; P. Z. McKeon, secretary; Samuel Eardly, Elmer Stevenson, William Adams and F. D. White, trustees; James Myler, statistician. All the officers come from this city with the exception of the vice president, Mr. Jackson being a resident of Wheeling and employed in one of the potteries there. All the business was wound up yesterday afternoon, with the exception of selecting the place of holding the next meeting. This was left with the trustees, and they will announce their decision early next year. Last evening a social session was conducted, there being a large number of potters present. Speeches were made, and the time spent pleasantly. Some delegates returned home this morning, others will leave tomorrow, and by Saturday evening all will have departed. A resolution was adopted by the visitors thanking the people of East Liverpool for their cordial reception.

Prominent officials of the organization refused to talk about the action relating to a uniform scale. In fact none could be found who would acknowledge that the question had been discussed.

A BOARD OF TRADE.

It Was Organized at the Hotel Grand Last Night.

A number of business men met at the Grand hotel last evening and organized a board of trade. A committee was appointed to visit all the merchants and solicit members. It is made up of T. V. Milligan, S. J. Crawford, W. O. Hamilton, John Rose and G. Y. Travis. The annual dues were placed at \$2. Messrs. Bendheim, Joseph and McKinney were selected to have the charter under which the old board did business transferred to the new organization. At the meeting to be held July 16, the date for a street fair will be selected. It is expected that this will be conducted in October when the bridge is opened for traffic. The board expects to keep watch over every movement that will be for the good of the city.

MARRIED THIS MORNING.

A Pittsburg Couple Came Here and Were Made One.

A young couple came from Pittsburg on the evening train for the purpose of getting married. They were chaperoned by an aunt of the bride prospective. The party went to the home of John Rinehart, Second street, and he telephoned to Lisbon for a marriage license, and went in search of a squire. The girl, however, changed her mind and thought she would prefer a minister. The ceremony was put off until this morning when the services of Reverend Sloane were procured, and the couple made one. They refused to make known their names, and returned to Pittsburg on the noon train today. In Lisbon it was learned that a license had been issued to V. P. Komars and Lillian Armagast.

IMPROVING.

J. J. Purinton is Getting Along as Well as the Doctors Expect.

Attorney John J. Purinton is resting very easy after undergoing the operation at West Penn hospital, yesterday afternoon. Mrs. Purinton returned from Pittsburg this morning, and said her husband was doing very nicely and the attending physicians say that, barring something unforeseen, their patient will recover rapidly.

STILL CLOSED.

No Arrangements Being Made to Open Avondale.

Avondale street is still fenced in, and vehicle traffic on that street is entirely suspended. The residents continue to ask when the city is going to place the road in a fit condition for travel again, and if something is not done soon to remedy the awful condition that exists, the expression is reiterated that several damage suits will follow.

MR. TILLMAN TALKED

And the Big Convention Hissed Several Times.

HILL MADE A VERY LONG SPEECH

He Wanted Them to Say Something About Bimetallism in the Platform—A Rousing Time in Chicago—Great Excitement and Lots of Cheering—No Ballot Today.

CONVENTION HALL, CHICAGO, July 9.—[Special.]—True to their promise the Democrats have been industriously manufacturing history, and last night was an important one for the silver people. They know they are in the majority, but they have a dread of something about to happen. Realizing the experience of the gold leaders, they fear a bomb will be exploded at the right moment, and they will lose a portion of the advantage already gained. They need not think on this line, for those men of the east who talked fight the other day are gradually awakening to the fact that there are too many silver advocates for them to secure even the core of the convention apple. As the small boy would put it, "there won't be no core."

The day opened cloudy and cool, and the weather men say there will be rain other than votes before night comes to shut out from view the most noisy political gathering ever known in Chicago.

The text of the platform was published this morning, and only differs in a few minor points from that given in the News Review yesterday afternoon. It had been decided that three hours will be given over to the discussion of the document, and around the New York headquarters they say that Hill will occupy at least half an hour of that time. Another rumor says that the gold men will sit quietly by and take no part in the proceedings if the platform is adopted in its present condition. Some delegates, as individuals, may walk out of the convention, but it now appears certain that there will be no general bolt. Efforts are being made to reach a ballot tonight, but it is thought that the actions of the gold men will intervene to delay a nomination.

There are predictions and predictions about the nominee, but the morning papers are almost unanimous in saying that Bland has the call, and at present his chances are best. It is claimed that the key to the situation is held by Alabama, Georgia, Mississippi and North Carolina. Georgia just now favors Bland, although several of the delegates are strong for Teller, and will vote for him if opportunity offers. Chairman White is freely quoted as saying that the struggle will likely be a lengthy one.

It is now after 10:45 and the delegates are coming in slowly. It will be some time before the convention is called to order, and the vast audience amuses itself by cheering prominent men as they appear on the floor or platform. It is now whispered around that the committee on resolutions have added a plank antagonistic to the A. P. A., and adopted a resolution commending civil and religious liberty to every citizen. A Boies banner was raised a few minutes ago, and was loudly cheered from every quarter of the hall. It is claimed that John R. McLean will have 60 votes on the first ballot.

And now the convention is at work. The platform is being read, cheers greeting some of the more important points, but the enthusiasm is not marked. A minority report will be read after a while in which strong exception will be taken to the free coinage of silver, and President Cleveland will be highly flattered. Senator Jones announces that each side will be given an hour and 20 minutes for debate, and the clerk begins to read the minority report.

When this was done Senator Tillman began to make amendments. He is then given time to talk, and begins in a characteristic manner. He refers to the way the "lying newspapers" have mis-

represented him as the pitchfork man, and is saluted with cheers and laughter. He professes to come from the land of secession, and hisses are heard all over the house, which he rebukes as an insult to South Carolina. "We are to inaugurate a war to liberate the white slaves," he says, and there is more cheering, but when he announces that he cannot say whether he represents the whole south there are cries of no and much confusion. "We have been hewers of wood and drawers of water in bondage to the states of New York, New Jersey and Connecticut," shrieks Tillman. "This is a sectional issue" (hisses). "That is a fact, and you cannot change it by hissing. Did New York and Pennsylvania get us a great increase in wealth during the last decade? No, but they increased in wealth more than 25 of the western and southern states combined. The south has no angry feeling of resentment for the wrongs it has suffered." At this moment the galleries call time, and the speech is interrupted, but the speaker will not cease. He says that sectionalism exists between the people and the money oligarchy of the east. He asks where is the New York leader now, and there are cries from the galleries that he is "in the soup." Someone shouts the name of Herr Most, and there is so much laughter that the chairman raps for order. He cannot quiet the excited throng who now shout for Hill. Tillman declares he will have his say if he has to stand there until sundown, and the crowd become quiet enough to hear him say that Hill will follow. He tried yesterday to have him go up in front, but he refused. Then he refers to Cleveland, and there are cheers. "To endorse Cleveland would be to write ourselves down as liars. Cleveland had the courage to override his oath and invade Illinois with troops. He has been the death of the Democratic party so far as he could be. John Sherman, Cleveland and Republicanism go very well together. We are now engaged in an effort to restore the liberty of our fathers, and we must have the Populists and bimetalists endorse our platform and nominees or they are beaten and disgraced in November. We have repudiated sin and the platform, but have not named the sinner. The issuing of bonds in time of peace is a usurpation of authority, and should be punished by impeachment." As Tillman concluded his speech a delegate from Maine endeavored to ask a question, but he was howled down. The South Carolina man was cheered and hissed by turns as he spoke, but he would not sit down, and evidently said just what he had intended.

Senator Jones, of Arkansas, begins his speech in favor of the majority report by declaring that it is not a sectional question, and then speaks at length on the platform. He gives way to Senator Hill who ascends the stage amid enthusiastic cheers. His first sentences arouse the crowd, and he speaks well. He touches upon the sectional claim by asking "when men are coming over to this great question from all nations, how in God's name can any one claim it." Then the crowd begins to cheer and applaud again, the senator standing on the platform, and calmly waiting until it is quiet enough for him to speak. The chairman endeavors to restore order, but the cheering breaks out afresh, three rousing cheers being given for Hill. Chairman Harry instructs the sergeant-at-arms to quiet the crowd, and Hill is endeavoring to make himself heard. At length quiet is restored, and he says that if he is to follow South Carolina he would say he is a Democrat, but he is not a mugwump. His mission is to unite, and not divide, and he wants to be heard for his cause. New York, he says, is the Gibraltar of Democracy, and this financial matter is not a question of patriotism, but of business. The convention should go no farther than to declare for international bimetalism, and they might as well do away with all national treaties as to act as one. The convention, he thinks, in launching the plat-

form, is saluted with cheers and laughter. He professes to come from the land of secession, and hisses are heard all over the house, which he rebukes as an insult to South Carolina. "We are to inaugurate a war to liberate the white slaves," he says, and there is more cheering, but when he announces that he cannot say whether he represents the whole south there are cries of no and much confusion. "We have been hewers of wood and drawers of water in bondage to the states of New York, New Jersey and Connecticut," shrieks Tillman. "This is a sectional issue" (hisses). "That is a fact, and you cannot change it by hissing. Did New York and Pennsylvania get us a great increase in wealth during the last decade? No, but they increased in wealth more than 25 of the western and southern states combined. The south has no angry feeling of resentment for the wrongs it has suffered." At this moment the galleries call time, and the speech is interrupted, but the speaker will not cease. He says that sectionalism exists between the people and the money oligarchy of the east. He asks where is the New York leader now, and there are cries from the galleries that he is "in the soup." Someone shouts the name of Herr Most, and there is so much laughter that the chairman raps for order. He cannot quiet the excited throng who now shout for Hill. Tillman declares he will have his say if he has to stand there until sundown, and the crowd become quiet enough to hear him say that Hill will follow. He tried yesterday to have him go up in front, but he refused. Then he refers to Cleveland, and there are cheers. "To endorse Cleveland would be to write ourselves down as liars. Cleveland had the courage to override his oath and invade Illinois with troops. He has been the death of the Democratic party so far as he could be. John Sherman, Cleveland and Republicanism go very well together. We are now engaged in an effort to restore the liberty of our fathers, and we must have the Populists and bimetalists endorse our platform and nominees or they are beaten and disgraced in November. We have repudiated sin and the platform, but have not named the sinner. The issuing of bonds in time of peace is a usurpation of authority, and should be punished by impeachment." As Tillman concluded his speech a delegate from Maine endeavored to ask a question, but he was howled down. The South Carolina man was cheered and hissed by turns as he spoke, but he would not sit down, and evidently said just what he had intended.

How can East Liverpool seriously consider a municipal light plant with such glaring evidence of failure in other towns and cities staring council fair in the face? How can the average taxpayer, not the wealthy man but he who owns no more than his home, look upon the movement without a protest? How can they expect this place to successfully accomplish what so many have attempted and in which dozens have signally failed? The experiment would be costly indeed. It has been so in towns where astute and shrewd men have been at the head of the movement. They were anxious for success, but unfortunately they failed, and the burden is upon the people who were taught to believe they would be benefited. From the examination of such data as I can gather I find that failure comes as a rule from three causes. The cost of the plant is invariably in excess of the expectations; light can not be made as cheaply as by a private company; the municipal plant fails to give good service, and the people will not patronize it. These causes, together with a prodigious amount of dissatisfaction, make up the history of municipal plants. People will not patronize a failure in light any more than in any other line, and the result is the loss of customers, and consequently loss to the taxpayer. No body makes anything from the investment beyond the company installing the plant and the men employed. As a rule they have an unusually profitable time of it, and the taxpayer, ignorant of the real cost, and expecting much more than he is given, pays the bill. Perhaps the day will come when a city can, with profit to its people, engage in making its own light, but that day is not here, and until it does come East Liverpool can not afford to try so costly an experiment.

TAXPAYER.

WE CAN'T MAKE IT PAY

More Light on the Matter of a Municipal Plant.

ELECTRICAL ENGINEER'S VIEW

One of the Highest Authorities Deems the Movement Unwise and Extravagant, Reasons For Failure of the Plan in Other Cities—Chicago Paid Dearly.

EDITOR NEWS REVIEW.—While council failed to consider the matter of a municipal light plant at the meeting that was to have been held on Tuesday evening, the movement, I hear, is not dead, and will appear again at the regular meeting next week.

As a taxpayer I look upon it as my duty to place before the public what information on this line I can find, and endeavor to show the fallacy of a municipality entering the business of making light. It is expensive and costly, and the towns that have tried it invariably come out at the little end of the horn. The best authorities in the country proclaim against the movement as unwise and unworthy serious consideration, condemning it as an extravagant act rather than commending it as a stroke of economy. Those cities where the system has been in use are willing and anxious to bear testimony of their costly experience, and the Electrical Engineer has found some evidence in this direction. In the issue of July 1 can be found this editorial:

"A number of cities have found it to be their best policy to sell out their municipal plants, and allow the business to revert to private management. Among the cities that have passed through this experience are Greenville, S. C., Carrollton, Ga., Stockton, Kansas, Lyons, La., Marceline, Mo., Marietta, O., Michigan City, Ind., Portland, Ore., Tipton, Ia., Titusville, Pa., and Moline, Ill. The city of Chicago furnishes an example of the cost of electric lighting under municipal management. The cost per lamp per year was found after careful study to be \$153.48, exclusive of taxes and insurance. A test of the value of this plant to the city lies in the fact that private companies are ready to contract to furnish the same amount of lighting at considerably less cost to the city than it can produce from its own plant. Another municipal plant which has been prominently mentioned as an example of the benefits of municipal ownership is that of the city of Detroit, Mich. In this case the plant was estimated to cost \$600,000, and the cost per lamp per year \$84.00. In addition to the issue of \$600,000 of city bonds, \$50,000 additional was required to be raised by direct taxation to complete the plant, and the annual cost per lamp already reaches \$100, with a new plant in perfect order."

How can East Liverpool seriously consider a municipal light plant with such glaring evidence of failure in other towns and cities staring council fair in the face? How can the average taxpayer, not the wealthy man but he who owns no more than his home, look upon the movement without a protest? How can they expect this place to successfully accomplish what so many have attempted and in which dozens have signally failed? The experiment would be costly indeed. It has been so in towns where astute and shrewd men have been at the head of the movement. They were anxious for success, but unfortunately they failed, and the burden is upon the people who were taught to believe they would be benefited. From the examination of such data as I can gather I find that failure comes as a rule from three causes. The cost of the plant is invariably in excess of the expectations; light can not be made as cheaply as by a private company; the municipal plant fails to give good service, and the people will not patronize it. These causes, together with a prodigious amount of dissatisfaction, make up the history of municipal plants. People will not patronize a failure in light any more than in any other line, and the result is the loss of customers, and consequently loss to the taxpayer. No body makes anything from the investment beyond the company installing the plant and the men employed. As a rule they have an unusually profitable time of it, and the taxpayer, ignorant of the real cost, and expecting much more than he is given, pays the bill. Perhaps the day will come when a city can, with profit to its people, engage in making its own light, but that day is not here, and until it does come East Liverpool can not afford to try so costly an experiment.

TAXPAYER.

A HARD FIGHT.

The Street Railway People are Going in to Win.

In spite of expectations the suit of the

county commissioners against the street railway company has not yet been listed for trial, but it will be heard in the very near future. The claim of the company is that the road is in no worse condition than when the track was put down, but on the other hand there is a better grade and the road would be an improvement over what it was if the track was removed. The company proposes to fight the suit to the end, and will be materially assisted by a large number of business men from this city and Wells-ville.

THE POLE BROKE.

And David McLane Now Has a Broken Arm.

David McLane broke his arm yesterday afternoon. In company with a number of Young Men's Christian Association boys he was practicing pole vaulting, at their grounds on Thompson's hill, getting in condition for the state pentathlon contest. He had jumped and was crossing the rope when the pole snapped in two, throwing him to the ground, a distance of six or seven feet. He alighted on all fours in the sawdust, but his weight was thrown on his right arm, with the result that his arm was broken above the wrist. He was taken to a physician at once, and the fracture reduced. The accident was due to a faulty pole, but it is through no fault of anyone here, as the pole was secured from a company who have the reputation of making the best poles of this kind in the country. McLane will not be able to practice for a long time, and his injury will considerably hamper the team at the state contest. He was considered one of their best men. It is not yet known who will be secured to take his place on the team.

LOST HIS BICYCLE.

William Mitcheson Had Some Experience in a Flood.

William Mitcheson arrived home last night from Fifteen. Mr. Mitcheson was in the cloud burst which occurred at that place two weeks ago, but luckily the people he was visiting did not have their house washed away although their store was washed down stream. He says it was the most fearful sight he ever witnessed, and has no desire to go through it again. His bicycle and a new coat were in the store, and both were lost. The next morning he found his bicycle had lodged on a sand bar, and he dug it out with a mattock, but it will take several dollars to repair the machine as it was badly damaged. The coat he didn't look for.

CALLING A PASTOR.

The M. P. Congregation Will Decide Next Sunday.

The congregation of the Methodist Protestant church held a meeting last night, but did not elect the successor to Rev. R. B. Whitehead. The place has been offered to Reverend Morris, of the Fourth church, Pittsburg, and he was notified by telegraph. He has already entered into negotiations with his own church, and as the matter was referred to a committee it is expected that nothing will be known until the end of the week. The new pastor will be elected at the meeting on Sunday morning.

BOOMING ROBERTS.

Some Democrats Want Him For a Congressional Candidate.

W. W. Roberts, who was for some time editor of the Alliance Critic, but is now connected with a Youngstown paper, is being boomed for congress. The Democrats realize that an effort to carry this district is a forlorn hope, and almost anyone will answer for a candidate. Not one of the party leaders in the district has signified a desire for the place, and it may go begging if the Youngstown editor fails to snatch the opportunity for greatness, and become a candidate.

BRICKS IN A KILN.

There Are Many More Than You Ever Imagined.

Although it seems incredible, 50,000 bricks are used in the construction of an ordinary sized biscuit kiln, the dimensions of which are 16 feet and six inches in diameter and 50 feet in height. In the erection of a kiln extreme care and caution is necessary in order that the draught arrangements may not prove faulty. Kiln builders have not been very busy this season, but anticipate plenty to do during the next year.

SHOT THE DOG.

It Had Been Run Over and Was in Misery.

While driving to camp Tuesday a valuable Beagle hound owned by Joseph Barlow, jumped out of the carriage and was run over. The wheels passed over the dog, and broke its back. The unfortunate animal was in the throes of death, and to end its misery it was dispatched with a bullet fired from a rifle.

THEIR WORK IS DONE

The Brotherhood Convention Closed Last Evening.

A. S. HUGHES IS STILL PRESIDENT

East Liverpool Got All the Offices With the Exception of the Vice-Presidency. They Refuse to Talk About the Uniform Scale—A Social Last Night.

The Brotherhood convention came to an end last evening, and some of the delegates have already returned to their homes.

Business of a private character, and not intended for the public ear, was transacted at the session yesterday afternoon. There was any quantity of it, and the time was faithfully occupied. The election of officers followed, with this result: A. S. Hughes, president; Jesse Jackson, vice president; P. Z. McKeon, secretary; Samuel Eardly, Elmer Stevenson, William Adams and F. D. White, trustees; James Myler, statistician. All the officers come from this city with the exception of the vice president, Mr. Jackson being a resident of Wheeling and employed in one of the potteries there. All the business was wound up yesterday afternoon, with the exception of selecting the place of holding the next meeting. This was left with the trustees, and they will announce their decision early next year. Last evening a social session was conducted, there being a large number of potters present. Speeches were made, and the time spent pleasantly. Some delegates returned home this morning, others will leave tomorrow, and by Saturday evening all will have departed. A resolution was adopted by the visitors thanking the people of East Liverpool for their cordial reception.

Prominent officials of the organization refused to talk about the action relating to a uniform scale. In fact none could be found who would acknowledge that the question had been discussed.

A BOARD OF TRADE.

It Was Organized at the Hotel Grand East Night.

A number of business men met at the Grand hotel last evening and organized a board of trade. A committee was appointed to visit all the merchants and solicit members. It is made up of T. V. Milligan, S. J. Crawford, W. O. Hamilton, John Rose and G. Y. Travis. The annual dues were placed at \$2. Messrs. Bendheim, Joseph and McKinney were selected to have the charter under which the old board did business transferred to the new organization. At the meeting to be held July 16, the date for a street fair will be selected. It is expected that this will be conducted in October when the bridge is opened for traffic. The board expects to keep watch over every movement that will be for the good of the city.

MARRIED THIS MORNING.

A Pittsburg Couple Came Here and Were Made One.

A young couple came from Pittsburg on the evening train for the purpose of getting married. They were chaperoned by an aunt of the bride prospective. The party went to the home of John Rinehart, Second street, and he telephoned to Lisbon for a marriage license, and went in search of a squire. The girl, however, changed her mind and thought she would prefer a minister. The ceremony was put off until this morning when the services of Reverend Sloane were procured, and the couple made one. They refused to make known their names, and returned to Pittsburg on the noon train today. In Lisbon it was learned that a license had been issued to V. P. Komars and Lillian Armagast.

IMPROVING.

J. J. Purinton is Getting Along as Well as the Doctors Expect.

Attorney John J. Purinton is resting very easy after undergoing the operation at West Penn hospital, yesterday afternoon. Mrs. Purinton returned from Pittsburg this morning, and said her husband was doing very nicely and the attending physicians say that, barring something unforeseen, their patient will recover rapidly.

STILL CLOSED.

No Arrangements Being Made to Open Avondale.

Avondale street is still fenced in, and vehicle traffic on that street is entirely suspended. The residents continue to ask when the city is going to place the road in a fit condition for travel again, and if something is not done soon to remedy the awful condition that exists, the expression is reiterated that several damage suits will follow.

THE Democratic platform strongly resembles a crazy patchwork.

If Altgeld should be nominated it is probable that Herr Most will be named for secretary of state.

AFTER the Democratic circus has completed its engagement in Chicago, the side show will fill a brief date in Columbiana county.

ALLIANCE is a town filled with brave people. It has invited Senator Tillman to speak there while on his way home from the Democratic convention.

WHEN the Democrats are weary of pointing with pride and viewing with alarm, they can go home and soberly think what fools some mortals are.

"DIXIE" seems to be a favorite in Chicago, and justly, too, because the south is in the saddle and riding the poor old Democratic donkey to death.

THE Ohio man is making the people of Chicago know he is present, two of him being anxious to head the ticket, and half a dozen being willing to sacrifice himself in the second place.

FOUR years ago the Democrats won the election on the promise that they would reduce the tariff and make better times. The tariff was reduced, but prosperity was changed to financial ruin. That is why the people will make protection the leading issue of the coming campaign.

ONE VIEW.

An excellent argument against the senseless craze for free silver comes from New York, where a writer in a leading paper declares that during these past few years of financial trouble times have been hardest in those sections of the country where the demand for silver is fiercest. The "debtor class," as he calls them, are banded together for the purpose of reducing the dollar to 53 cents. Lenders of money take alarm, and either send it out of the country, or put it in bank vaults where it can be exchanged for gold on short notice. The banks see what is going on in the minds of their depositors, and curtail their discounts in order to be ready to meet any sudden demands from them. This makes hard times, and money is scarce. Then those who have caused the scarcity exclaim that the fault lies with the gold bugs, and they demand the free coinage of silver, which of course, adds additional terror, and money is scarcer than ever. Not only do lenders refuse to put out money, but they call in loans already made if they are overdue, although under ordinary circumstances they would be glad to let them run on. Thus it is shown that the borrower and not the lender causes financial panic.

THE PLATFORM

Under Discussion In the Convention Today.

TILLMAN SILVER'S STAR.

Making the Principal Speech, With Hill For Gold.

BLAND LIKELY TO BE BEATEN.

The Combination Against Him Claim They Have Blocked His Nomination.

Bryan of Nebraska a Formidable Dark Horse—McLean's Power In the Convention Manifest Everywhere—The Move to Nominate Teller Grows Stronger With Each Development—Nebraska Gold Delegation Unseated, Also Four Delegates From Michigan—A Great Demonstration When New York Voted.

Taken as a Personal Tribute to Hill, Silver's Immense Demonstration When the Victorious Vote Was Announced.

CHICAGO, July 9.—The Democratic national convention resumed this morning at 10 o'clock with Permanent Chairman White presiding.

There was not such freedom of debate on the report of the committee on resolutions, which was the first order of business in the convention today, as there was on the report on the committee on credentials last night.

It had been arranged to allow an hour and 20 minutes on each side for the discussion of the resolutions, after which

the Michigan contest excited warm debate, what gave evidence of intense personal feeling aroused. When, after two hours' of speaking, the final vote was taken, it gave the occasion for the most spontaneous and stirring demonstrations that have occurred. As the New York delegation cast its solid vote to sustain the Michigan delegates a great shout went up from the thousands of delegates and spectators, which grew intenser as it proceeded, while men jumped on chairs and waved hats, canes, hankers, and shouted themselves hoarse. It was 18 minutes before the rapping of the chairman could bring the convention back to order. Then, a moment later, the chair announced that the silver men had a decisive majority, there was a repetition of the wild demonstration, this time by the silver men, lasting 19 minutes.

The prolonged demonstration over New York's vote on the Michigan contest was construed by the silver men as pre-arranged. Some of them regarded it as an effort to stampede the convention and nominate Senator Hill.

They immediately jumped to the conclusion that the hall had been packed and many schemes were hurriedly discussed looking to the prevention of any future demonstration of the same character. Several of the silver delegates mounted the platform during the first period of the demonstration and remonstrated with Senator Daniel, who was presiding, over the mildness of his manner.

With the growing storm the silver leaders became very much incensed. Acting on the spur of momentary impulse, Governor Stone circulated a resolution directing the sergeant-at-arms to clear the galleries completely. Many of the silver delegates assured him of their support, and it looked for a while as if this heroic remedy would

a vote will be insisted upon. Senator Tillman is speaking and is to consume 50 minutes of the time for the majority report. He will be followed by Bryan, Jones and one other silver man.

Senator Hill will make the principal speech on behalf of the minority. Vilas, Gray and Russell will be the other minority speakers.

It is intended to proceed with the nominating speeches as soon as the platform is unoccupied.

The silver men have been in control in the committee rooms and in the convention. No quarter was shown. The committee on resolutions, where they had a majority of 20, crushed the opposition, and with a few modifications and insertion of several planks adopted the platform adopted by the subcommittee given in these dispatches yesterday.

It declares briefly for the free and independent coinage of silver without the co-operation of any other nation; for a tariff for revenue only, sufficient to pay the expenses of the government economically administered; for a constitutional amendment for an income tax, against federal interference in local affairs, against a third term, for simplicity and economy in national affairs, against a Pacific railroad funding bill, condemns the issue of bonds in time of peace, and gives a mild endorsement to the civil service law.

Senator Hill, following the Biblical injunction to turn the other cheek after the resolutions which inferentially condemned the president at three distinct points, had been adopted by the full committee, offered a plank commending the administration for its honesty, fidelity and courage. By a vote of 27 to 17 it was defeated. Everywhere there has been talk of a gold bolt, and it seems now very probable that there may be definite action of at least a portion of the minority. The leaders, however, are still exercising their influence

to restrain their followers. The New York delegation decided not to withdraw.

The committee on credentials had decided to unseat the full gold delegation from Michigan, but compromised on unseating four gold delegates, which, while it threw the delegation from gold silver by the unit rule, somewhat pacified the gold men. They did it for this reason:

The Massachusetts and Connecticut delegations threatened to either bolt or passively refuse to act in the convention, if the full Michigan delegation was unseated.

Coupled with this came the intimation that Senator White, who had been selected for permanent chairman, would rule that a nomination could be made by two-thirds of the delegates voting in the convention.

If such a ruling was allowed, the gold men with their big lead could perhaps overcome his nomination if the gold men declined to vote. The friends of the other candidates became alarmed at the possibility and with swift combination against the Missouriian, made haste to reconsider their action. It was this hitch in the committee on credentials which rendered the day session of the convention a nullity so far as results were concerned, only the Nebraska gold delegation being unseated.

At night four gold delegates from Michigan were unseated.

Bryan, the boy orator of the Platte, is now everywhere recognized as a formidable dark horse. The sudden announcement of the determination of the Illinois delegation to desert Bland and vote for Stevenson after the first ballot fell like a wet blanket on the Missouri candidate. The Alabama Bland men also changed their allegiance, but the Bland men still kept up a brave front.

The combination against the Missouriian has made great progress, and his opponents confidently claim that they have blocked his way to the nomination. McLean's power in the convention is manifest everywhere and the combination to nominate Teller has grown more formidable with each development.

The prospects of a gold bolt strengthened the argument of those who favored an open fusion with the silver Republicans and the Populists as the politics of the situation.

General Charles Tracey of the New York delegation says he will feel compelled to leave the convention when the silver platform is adopted, or announce to the convention that he cannot support the candidate on that platform.

The Michigan contest excited warm debate, what gave evidence of intense personal feeling aroused. When, after two hours' of speaking, the final vote was taken, it gave the occasion for the most spontaneous and stirring demonstrations that have occurred. As the New York delegation cast its solid vote to sustain the Michigan delegates a great shout went up from the thousands of delegates and spectators, which grew intenser as it proceeded, while men jumped on chairs and waved hats, canes, hankers, and shouted themselves hoarse. It was 18 minutes before the rapping of the chairman could bring the convention back to order. Then, a moment later, the chair announced that the silver men had a decisive majority, there was a repetition of the wild demonstration, this time by the silver men, lasting 19 minutes.

The prolonged demonstration over New York's vote on the Michigan contest was construed by the silver men as pre-arranged. Some of them regarded it as an effort to stampede the convention and nominate Senator Hill.

They immediately jumped to the conclusion that the hall had been packed and many schemes were hurriedly discussed looking to the prevention of any future demonstration of the same character. Several of the silver delegates mounted the platform during the first period of the demonstration and remonstrated with Senator Daniel, who was presiding, over the mildness of his manner.

With the growing storm the silver leaders became very much incensed. Acting on the spur of momentary impulse, Governor Stone circulated a resolution directing the sergeant-at-arms to clear the galleries completely. Many of the silver delegates assured him of their support, and it looked for a while as if this heroic remedy would

be resorted to. Different counsels prevailed, however.

The first manifestation made upon New York's vote was generally accepted as a personal tribute to Senator Hill. He sat quietly in his seat while the cheering proceeded, and appeared anxious to attract as little attention as possible. He was sought out, however, by many friends and personal admirers and congratulated upon the demonstration. When it was suggested to him that it might mean an effort to secure his nomination he closed his lips tightly and declined to make reply.

There is much uncertainty regarding the position of ex-Governor Pattison in the race for the presidential nomination. It seems to be understood that after the platform of the silver people has been adopted Mr. Pattison will not be formally placed in nomination for the reason that his friends could not consistently urge his selection on a platform expressing convictions on finance to which he is opposed. Nevertheless, the Pennsylvania delegation is instructed for Pattison, and unless he signifies a desire that his name be withdrawn, the 64 votes of the Keystone state will be cast for Pattison when Pennsylvania is reached in the roll call.

It is understood that some members of the Pennsylvania delegation telegraphed Mr. Pattison asking for an expression of his wishes in the matter, but no reply has been received.

Should Governor Pattison withdraw the eastern gold Democrats will be left without a candidate, as it is understood that nearly all of the eastern states have decided that if they vote at all Pattison will be their choice.

Mr. Harry declines to discuss the situation further than to say that Pennsylvania's vote will be cast for Pattison unless that gentleman requests otherwise.

A LIVELY SESSION.

Detailed Report of the Convention Proceedings Yesterday.

CHICAGO, July 9.—After Senator Daniel rapped the second day's session to order, Rev. Francis Edward Green,

an Episcopal minister, of Cedar Rapids, Ia., made the opening prayer.

A hitch in the machinery appeared at once for the committee on credentials, which always reports first, was not ready with its recommendations. In the meantime, while the convention was waiting, a diversion was furnished by the band which was brought to Chicago by the Bland Marching club, playing Dixie. It produced the customary explosion of enthusiasm, the Missouri delegates, with many of their supporters, climbing into their chairs to shout "Maryland, My Maryland," which inspired another demonstration.

Then Chairman Daniel put a motion that the convention take a five minutes' recess and be addressed by Governor

Hogg of Texas. The motion was carried. The former Lone Star governor made a fine speech.

Among the distinguished guests on the platform were Don M. Dickinson, Senators Dubois and Pettigrew, Congressman Towne of Minnesota, Colonel W. H. Hepburn of Iowa, John Allen of Tupelo, Miss. the wife of the house of representatives; ex-Congressman Phil Thompson of Kentucky; ex-Senator Butler of South Carolina, who was defeated for re-election to the senate by Ben Tillman. Among the ladies on the platform were Mrs. U. S. Grant and Mrs. Potter Palmer.

When ex-Governor Hogg had finished Senator White assumed the gavel temporarily, while the crowd cried for Hill, Bryan, Blackburn, Altgeld and others. Delegate Money of Mississippi moved that Senator Blackburn be requested to address the convention, and the crowd yelled itself hoarse in approval. He made a great silver speech and counseled conservatism.

As he closed the 15,000 people went wild. The chairman inquired for Bryan of Nebraska, but he was not present. There were wild cries for Hill.

Then an Illinois delegate called for Governor Altgeld. His friends and enemies arose to their feet, the former to urge him to speak and his enemies to hiss. But there was great curiosity to see the Illinois man among the delegates. Finally he made his way to the aisle and the cheer was redoubled.

His opponents, also, when they spied him from the galleries were inflamed in wrath, and they showed upon him a sputter of hisses. Throughout this scene the delegations from New York, Massachusetts and other eastern states sat in dumb silence. There came an end to the uproar at last, and Altgeld made his voice heard shouting: "On behalf of the state of Illinois I suggest that this convention give to Hon. David B. Hill of New York an opportunity to address it."

This stroke brought down another shower of demands for "Hill, Hill, Hill."

The chairman made himself heard and said: "The distinguished gentleman from New York who has been called for so often is a member of the committee on resolutions and is not here."

Still the convention demanded Hill until Senator White was driven to cry appealingly, "why will you insist on a man who is not here?"

Then the cry was turned to "Russell" by the eastern members, but the young Massachusetts ex-governor sat impassively in his chair in the first row and his friends gave him up. Finally ex-Governor Overmeyer of Kansas was brought to the platform and appeased the appetite of the crowd for several minutes as he pleaded for "the dollar of the daddies."

Governor Altgeld then spoke, and he soon swayed the convention by his oratory.

When he declared that hungry men and children were looking to this convention for relief there was a great demonstration. Adroitly he worked on to his climax. He described the toil and blood and sweat of the millions which was being doubled by the shrinking standard of values. Then he paused, and flinging his arms out before him asked: "Will you let them continue it?"

"No, no, never," came in thundering chorus from 10,000 throats. Later, referring to the great struggle against slavery, he pointed to an American flag at his back and scouted the idea of compromise. "Did the men," he asked, "who gave up their lives to preserve

that flag, talk of compromise? There could be none. There can be none." As he finished and descended from the platform he was accorded another great demonstration.

After the interlude by the band, New England had her inning, when George Fred Williams, the stalwart, fashionably attired, blonde mustached, shorly looking young ex-congressman from Massachusetts, whose conversion to free silver was recently announced, was called to the platform and made a speech containing silver sentiment. As he left the stage he was surrounded by

approving silver men and one delegate from his own state extended a congratulating hand.

The committee on credentials having at last agreed on a partial report, the chairman, Mr. Atwood of Kansas, was introduced and presented the report. It found the temporary roll correct save in Michigan and Nebraska. In Nebraska the report seated the silver delegation headed by W. J. Bryan. This announcement was greeted with a storm of cheers. The committee asked for further time to decide the Michigan contest.

T. J. Mahoney, one of the gold delegates from Nebraska, made a brief speech of protest. He and his colleagues, he said, well understood that they were to be thrown out, and at the head of the delegation they marched out. The report of the committee was adopted by a viva voce vote. Ex-Governor Russell of Massachusetts at first demanded a roll call, but subsequently withdrew it.

The band played while the wait for a decision in the Michigan case occurred. Then the Nebraska silver delegation came marching in, bearing on their shoulders their champion, William J. Bryan. A big banner accompanied the delegation. The Nebraskan was given a great ovation.

Governor Altgeld moved that the convention take a recess until 5 o'clock. The delegates were eager for work, and there were cries of "no, no."

Senator White explained that the committee on credentials had reported that it could not finish its work for three hours and that the convention could not adopt a platform without the titles to seats settled.

So, although Finley of Ohio moved to proceed, the adjournment was made.

Chairman Daniel called the convention to order again at 5:40 and announced that the committee on credentials was ready to report. When the reading clerk read the report seating four silver district delegates from Michigan, which changed the complexion of the delegation under the unit rule from gold to silver, there was considerable applause among the silver men on the floor. Ex-Congressman John C. Crosby of Massachusetts, on behalf of the minority of the committee, took the stage and earnestly protested against the decision of the majority. He spoke, he said, in behalf of 18 states. John H. Brannan, a Wisconsin gold delegate, followed with another protest.

Delegate F. M. Taylor of Arkansas defended the course of the majority of the committee.

Governor McLaurin of Mississippi also came to the defense of the committee. He accused the administration of

packing the Michigan convention. This raised a protest from the galleries which made the silver delegates mad and pandemonium reigned. At last Colonel Martin, the sergeant-at-arms, interposed from the platform and instructed the assistant sergeants-at-arms to summarily eject any one who interrupted proceedings. Senator McLaurin drifted into a discussion of the issue before the Democrats of Michigan, whereupon Delegate McDermott of New Jersey arose to a point of order.

"What happened 20 years ago," he shouted, "has nothing to do with the merits of this controversy." The galleries cheered and waved their handkerchiefs at this protest from the floor. The blood of the gold spectators was aroused.

Joseph P. Salisbury of Delaware opposed the report.

After Salisbury stepped to the front of the platform a stalwart, blonde mustached young man, with a red rose on the lapel of his summer coat.

"Gentlemen, I am the man they say stole Michigan," he shouted in a tone that rang to the rafters.

"Name, name," the galleries cried.

"Stevenson," the young man yelled. His full name was Eliot G. Stevenson, he is the law partner of President Cleveland's friend and one time cabinet aide, Don Dickinson, and the man who is accused by the silver men with rounding up 400 federal officeholders to swing the Detroit convention for gold.

Defiantly he told the convention that it had no right to turn out delegates aided by a sovereign state, but by doing so it would establish a precedent that would return to damn it, and to these declarations were returned cries "right you are."

Ex-Lieutenant Governor Sheehan of New York then made a protesting speech.

His place was taken by Delegate J. W. Blake of Texas, who made a violent speech in favor of seating the silver men, saying the convention had been packed and manipulated by officeholders.

"The whole infernal delegation should, in my opinion, be turned out," he said earnestly.

Delegate McKnight, one of the Michigan silver delegates, replied to Mr. Stevenson. He said that it was notorious that the silver men elected a majority of 200 to the Michigan convention.

"As soon as the administration at Washington ascertained this fact," he continued, "Mr. Stevenson was hastily summoned to Washington for a conference with the great chief."

"It's a lie," yelled Mr. Stevenson, mounting a chair and facing the delegates. "There is not one word of truth in the statement." Mr. McKnight insisted on his statement and predicted that Michigan would give 25,000 Democratic majority if a free silver platform was adopted.

Judge O. W. Powers of Utah followed for the silver men.

State Senator Thomas O'Grady of New York then spoke for gold. Senator Grady was just beginning to be listened to when the thread of his argument was harshly interrupted by the

GOVERNOR ALTGELD SPEAKING.

GOVERNOR ALTGELD SPEAKING.

GOVERNOR ALTGELD SPEAKING.

approving silver men and one delegate from his own state extended a congratulating hand.

The committee on credentials having at last agreed on a partial report, the chairman, Mr. Atwood of Kansas, was introduced and presented the report. It found the temporary roll correct save in Michigan and Nebraska. In Nebraska the report seated the silver delegation headed by W. J. Bryan. This announcement was greeted with a storm of cheers. The committee asked for further time to decide the Michigan contest.

T. J. Mahoney, one of the gold delegates from Nebraska, made a brief speech of protest. He and his colleagues, he said, well understood that they were to be thrown out, and at the head of the delegation they marched out. The report of the committee was adopted by a viva voce vote. Ex-Governor Russell of Massachusetts at first demanded a roll call, but subsequently withdrew it.

The band played while the wait for a decision in the Michigan case occurred. Then the Nebraska silver delegation came marching in, bearing on their shoulders their champion, William J. Bryan. A big banner accompanied the delegation. The Nebraskan was given a great ovation.

Governor Altgeld moved that the convention take a recess until 5 o'clock. The delegates were eager for work, and there were cries of "no, no."

Senator White explained that the committee on credentials had reported that it could not finish its work for three hours and that the convention could not adopt a platform without the titles to seats settled.

So, although Finley of Ohio moved to proceed, the adjournment was made.

Chairman Daniel called the convention to order again at 5:40 and announced that the committee on credentials was ready to report. When the reading clerk read the report seating four silver district delegates from Michigan, which changed the complexion of the delegation under the unit rule from gold to silver, there was considerable applause among the silver men on the floor. Ex-Congressman John C. Crosby of Massachusetts, on behalf of the minority of the committee, took the stage and earnestly protested against the decision of the majority. He spoke, he said, in behalf of 18 states. John H. Brannan, a Wisconsin gold delegate, followed with another protest.

Delegate F. M. Taylor of Arkansas defended the course of the majority of the committee.

Governor McLaurin of Mississippi also came to the defense of the committee. He accused the administration of

packing the Michigan convention. This raised a protest from the galleries which made the silver delegates mad and pandemonium reigned. At last Colonel Martin, the sergeant-at-arms, interposed from the platform and instructed the assistant sergeants-at-arms to summarily eject any one who interrupted proceedings. Senator McLaurin drifted into a discussion of the issue before the Democrats of Michigan, whereupon Delegate McDermott of New Jersey arose to a point of order.

"What happened 20 years ago," he shouted, "has nothing to do with the merits of this controversy." The galleries cheered and waved their handkerchiefs at this protest from the floor. The blood of the gold spectators was aroused.

Joseph P. Salisbury of Delaware opposed the report.

After Salisbury stepped to the front of the platform a stalwart, blonde mustached young man, with a red rose on the lapel of his summer coat.

"Gentlemen, I am the man they say stole Michigan," he shouted in a tone that rang to the rafters.

"Name, name," the galleries cried.

"Stevenson," the young man yelled. His full name was Eliot G. Stevenson, he is the law partner of President Cleveland's friend and one time cabinet aide, Don Dickinson, and the man who is accused by the silver men with rounding up 400 federal officeholders to swing the Detroit convention for gold.

Defiantly he told the convention that it had no right to turn out delegates aided by a sovereign state, but by doing so it would establish a precedent that would return to damn it, and to these declarations were returned cries "right you are."

Ex-Lieutenant Governor Sheehan of New York then made a protesting speech.

His place was taken by Delegate J. W. Blake of Texas, who made a violent speech in favor of seating the silver men, saying the convention had been packed and manipulated by officeholders.

"The whole infernal delegation should, in my opinion, be turned out," he said earnestly.

Delegate McKnight, one of the Michigan silver delegates, replied to Mr. Stevenson. He said that it was notorious that the silver men elected a majority of 200 to the Michigan convention.

"As soon as the administration at Washington ascertained this fact," he continued, "Mr. Stevenson was hastily summoned to Washington for a conference with the great chief."

"It's a lie," yelled Mr. Stevenson, mounting a chair and facing the delegates. "There is not one word of truth in the statement." Mr. McKnight insisted on his statement and predicted that Michigan would give 25,000 Democratic majority if a free silver platform was adopted.

Judge O. W. Powers of Utah followed for the silver men.

State Senator Thomas O'Grady of New York then spoke for gold. Senator Grady was just beginning to be listened to when the thread of his argument was harshly interrupted by the

The Democratic platform strongly resembles a crazy patchwork.

If Altgeld should be nominated it is probable that Herr Most will be named for secretary of state.

AFTER the Democratic circus has completed its engagement in Chicago, the side show will fill a brief date in Columbiana county.

ALLIANCE is a town filled with brave people. It has invited Senator Tillman to speak there while on his way home from the Democratic convention.

WHEN the Democrats are weary of pointing with pride and viewing with alarm, they can go home and soberly think what fools some mortals are.

"DIXIE" seems to be a favorite in Chicago, and justly, too, because the south is in the saddle and riding the poor old Democratic donkey to death.

THE Ohio man is making the people of Chicago know he is present, two of him being anxious to head the ticket, and half a dozen being willing to sacrifice himself in the second place.

FOUR years ago the Democrats won the election on the promise that they would reduce the tariff and make better times. The tariff was reduced, but prosperity was changed to financial ruin. That is why the people will make protection the leading issue of the coming campaign.

ONE VIEW.

An excellent argument against the senseless craze for free silver comes from New York, where a writer in a leading paper declares that during these past few years of financial trouble times have been hardest in those sections of the country where the demand for silver is fiercest. The "debtor class," as he calls them, are banded together for the purpose of reducing the dollar to 63 cents. Lenders of money take alarm, and either send it out of the country, or put it in bank vaults where it can be exchanged for gold on short notice. The banks see what is going on in the minds of their depositors, and curtail their discounts in order to be ready to meet any sudden demands from them. This makes hard times, and money is scarce. Then those who have caused the scarcity exclaim that the fault lies with the gold bugs, and they demand the free coinage of silver, which, of course, adds additional terror, and money is scarcer than ever. Not only do lenders refuse to put out money, but they call in loans already made if they are overdue, although under ordinary circumstances they would be glad to let them run on. Thus it is shown that the borrower and not the lender causes financial panic.

THE PLATFORM

Under Discussion In the Convention Today.

TILLMAN SILVER'S STAR.

Making the Principal Speech, With Hill For Gold.

BLAND LIKELY TO BE BEATEN.

The Combination Against Him Claim They Have Blocked His Nomination. Bryan of Nebraska a Formidable Dark Horse—McLean's Power In the Convention Manifest Everywhere—The Move to Nominate Teller Grows Stronger With Each Development—Nebraska Gold Delegation Unseated, Also Four Delegates From Michigan—A Great Demonstration When New York Voted. Taken as a Personal Tribute to Hill, Silver's Immense Demonstration When the Victorious Vote Was Announced.

CHICAGO, July 9.—The Democratic national convention resumed this morning at 10 o'clock with Permanent Chairman White presiding.

There was not such freedom of debate on the report of the committee on resolutions, which was the first order of business in the convention today, as there was on the report on the committee on credentials last night.

It had been arranged to allow an hour and 20 minutes on each side for the discussion of the resolutions, after which

SENATOR TILLMAN.

a vote will be insisted upon. Senator Tillman is speaking and is to consume 50 minutes of the time for the majority report. He will be followed by Bryan, Jones and one other silver man.

Senator Hill will make the principal speech on behalf of the minority. Vilas, Gray and Russell will be the other minority speakers.

It is intended to proceed with the nominating speeches as soon as the platform is adopted.

The silver men have been in control in the committee rooms and in the convention. No quarter was shown. The committee on resolutions, where they had a majority of 20, crushed the opposition, and with a few modifications and insertion of several planks adopted the platform adopted by the sub-committee given in these dispatches yesterday.

It declares briefly for the free and independent coinage of silver without the co-operation of any other nation; for a tariff for revenue only, sufficient to pay the expenses of the government economically administered, for a constitutional amendment for an income tax, against federal interference in local affairs, against a third term, for simplicity and economy in national affairs, against a Pacific railroad, funding bill, condemn the issue of bonds in time of peace, and gives a mild endorsement to the civil service law.

Senator Hill, following the Biblical injunction to turn the other cheek after the resolutions which inferentially condemned the president at three distinct points, had been adopted by the full committee, offered a plank commending the administration for its honesty, fidelity and courage. By a vote of 27 to 17 it was defeated. Everywhere there has been talk of a gold bolt, and it seems now very probable that there may be definite action of at least a portion of the minority. The leaders, however, are still exercising their influence.

The leaders, however, are still exercising their influence.

EX-GOVERNOR PATTISON.

To restrain their followers. The New York delegation decided not to withdraw.

The committee on credentials had decided to unseat the full gold delegation from Michigan, but compromised on unseating four gold delegates, which, while it threw the delegation from gold to silver by the unit rule, somewhat pacified the gold men. They did it for this reason:

The Massachusetts and Connecticut delegations threatened to either bolt or passively refuse to act in the convention, if the full Michigan delegation was unseated.

Coupled with this came the intimation that Senator White, who had been selected for permanent chairman, would rule that a nomination could be made by two-thirds of the delegates voting in the convention.

If such a ruling was allowed, the Bland men with their big lead could perhaps compass his nomination if the gold men declined to vote. The friends of the other candidates became alarmed at the possibility and with swift combination against the Missourian, made haste to reconsider their action. It was this hitch in the committee on credentials which rendered the day session of the convention a nullity so far as results were concerned, only the Nebraska gold delegation being unseated. At night four gold delegates from Michigan were unseated.

Bryan, the boy orator of the Platte, is now everywhere recognized as a formidable dark horse. The sudden announcement of the determination of the Illinois delegation to desert Bland and vote for Stevenson after the first ballot fell like a wet blanket on the Missouri candidate. The Alabama Bland men also changed their allegiance, but the Bland men still kept up a brave front.

The combination against the Missourian has made great progress and his opponents confidently claim that they have blocked his way to the nomination. McLean's power in the convention is manifest everywhere and the combination to nominate Teller has grown more formidable with each development.

The prospects of a gold bolt strengthen the argument of those who favored an open fusion with the silver Republicans and the Populists as the politics of the situation.

General Charles Tracey of the New York delegation says he will feel compelled to leave the convention when the silver platform is adopted, or announce to the convention that he cannot support the candidate on that platform.

The Michigan contest excited warm debate, what gave evidence of intense personal feeling aroused. When, after two hours of speechmaking, the final vote was taken, it gave the occasion for the most spontaneous and stirring demonstrations that have occurred. As the New York delegation of its solid vote to sustain the Michigan delegates a great shout went up from the thousands of delegates and spectators, which grew intensity as it proceeded, while men jumped on chairs and waved hats, canes, hankchiefs and shouted themselves hoarse. It was 18 minutes before the rapping of the chairman could bring the convention back to order. Then, a moment later, the chair announced that the silver men had a decisive majority, there was a repetition of the wild demonstration, this time by the silver men, lasting 19 minutes.

The prolonged demonstration over New York's vote on the Michigan contest was construed by the silver men as pre-arranged. Some of them regarded it as an effort to stampede the convention and nominate Senator Hill. They immediately jumped to the conclusion that the hall had been packed and many schemes were hurriedly discussed looking to the prevention of a future demonstration of the same character. Several of the silver delegates mounted the platform during the first period of the demonstration and remonstrated with Senator Daniel, who was presiding, over the mildness of his manner.

With the growing storm the silver leaders became very much incensed. Acting on the spur of momentary impulse, Governor Stone circulated a resolution directing the sergeant-at-arms to clear the galleries completely. Many of the silver delegates assured him of their support, and it looked for a while as if this heroic remedy would

CONGRESSMAN BRYAN.

be resorted to. Different counsels prevailed, however.

A first manifestation made upon New York's vote was generally accepted as a personal tribute to Senator Hill. He sat quietly in his seat while the cheering proceeded, and appeared anxious to attract as little attention as possible. He was sought out, however, by many friends and personal admirers and congratulated upon the demonstration. When it was suggested to him that it might mean an effort to secure his nomination he closed his lips tightly and declined to make reply.

There is much uncertainty regarding the position of ex-Governor Pattison in the race for the presidential nomination. It seems to be understood that after the platform of the silver people has been adopted Mr. Pattison will not be formally placed in nomination for the reason that his friends could not consistently urge his selection on a platform expressing convictions on finance which he opposed. Nevertheless, the Pennsylvania delegation is instructed for Pattison, and unless he signifies a desire that his name be withdrawn, the 64 votes of the Keystone state will be cast for Pattison when Pennsylvania is reached in the roll call.

It is understood that some members of the Pennsylvania delegation telegraphed Mr. Pattison asking for an expression of his wishes in the matter, but no reply has been received.

Should Governor Pattison withdraw the eastern gold Democrats will be left without a candidate, as it is understood that nearly all of the eastern states have decided that if they vote at all Pattison will be their choice.

Mr. Harry declines to discuss the situation further than to say that Pennsylvania's vote will be cast for Pattison unless that gentleman requests otherwise.

A LIVELY SESSION.

Detailed Report of the Convention Proceedings Yesterday.

CHICAGO, July 9.—After Senator Daniel rapped the second day's session to order, Rev. Francis Edward Green,

an Episcopal minister, of Cedar Rapids, Ia., made the opening prayer.

A hitch in the machinery appeared at once for the committee on credentials, which always reports first, was not ready with its recommendations. In the meantime, while the convention was waiting, a diversion was furnished by the band which was brought to Chicago by the Bland Marching club, playing Dixie. It produced the customary explosion of enthusiasm, the Missouri delegates, with many of their supporters, climbing into their chairs to shout "Maryland, My Maryland," which inspired another demonstration.

Then Chairman Daniel put a motion that the convention take a five minute recess and be addressed by Governor

J. C. BLACKBURN.

Hogg of Texas. The motion was carried. The former Lone Star governor made a fine speech.

Among the distinguished guests on the platform were Don M. Dickinson, Senators Dubois and Pettigrew, Congressman Towne of Minnesota, Colonel W. H. Hepburn of Iowa, John Allen of Tupelo, Miss., the wit of the house of representatives; ex-Congressman Phil Thompson of Kentucky; ex-Senator Butler of South Carolina, who was defeated for re-election to the senate by Ben Tillman. Among the ladies on the platform were Mrs. U. S. Grant and Mrs. Potter Palmer.

When ex-Governor Hogg had finished Senator White assumed the gavel temporarily, while the crowd cried for Hill, Bryan, Blackburn, Altgeld and others. Delegate Money of Mississippi moved that Senator Blackburn be requested to address the convention, and the crowd yelled itself hoarse in approval. He made a great silver speech and counseled conservatism.

As he closed the 15,000 people went wild. The chairman inquired for Bryan of Nebraska, but he was not present. There were wild cries for Hill.

Then an Illinois delegate called for Governor Altgeld. His friends and enemies arose to their feet, the former to urge him to speak and his enemies to hiss. But there was great curiosity to see the Illinois man among the delegates. Finally he made his way to the aisle and the cheer was redoubled.

His opponents, also, when they spied him from the galleries were inflamed in wrath, and they showered upon him a spatter of hisses. Throughout this scene the delegations from New York, Massachusetts and other eastern states sat in frozen silence. There came an end to the uproar at last, and Altgeld made his voice heard shouting: "On behalf of the state of Illinois I suggest that this convention give to Hon. David B. Hill of New York an opportunity to address it."

This stroke brought down another shower of demands for "Hill, Hill, Hill."

The chairman made himself heard and said: "The distinguished gentleman from New York who has been called for so often is a member of the committee on resolutions and is not here."

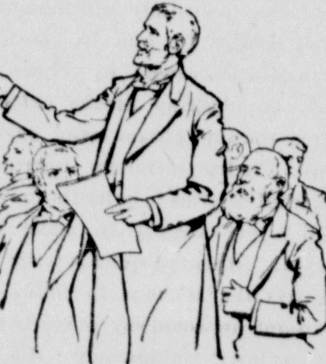

Still the convention demanded Hill until Senator White was driven to cry appealingly, "why will you insist on a man who is not here?"

Then the cry was turned to "Russell" by the eastern men, but the young Massachusetts ex-governor sat impassively in his chair in the first row and his friends gave him up. Finally ex-Governor Overmeyer of Kansas was brought to the platform and appeased the appetite of the crowd for several minutes as he pleaded for "the dollar of the daddies."

Governor Altgeld then spoke, and he soon swayed the convention by his oratory.

When he declared that hungry men and children were looking to this convention for relief there was a great demonstration. Adroitly he worked on to his climax. He described the toil and blood and sweat of the millions which was being doubled by the shrinking standard of values. Then he paused, and flinging his arms out before him asked: "Will you let them continue it?"

"No, no, never," came in thundering chorus from 10,000 throats. Later, referring to the great struggle against slavery, he pointed to an American flag at his back and scouted the idea of compromise. "Did the men," he asked, "who gave up their lives to preserve

GOVERNOR ALTGELD SPEAKING.

that flag, talk of compromise? There could be none. There can be none." As he finished and descended from the platform he was accorded another great demonstration.

After the interlude by the band, New England had her lining, when George Fred Williams, the stalwart, fashionably attired, blonde mustached, sholarly looking young ex-congressman from Massachusetts, whose conversion to free silver was recently announced, was called to the platform and made a speech containing silver sentiment. As he left the stage he was surrounded by

approving silver men and one delegate from his own state extended a congratulating hand.

The committee on credentials having at last agreed on a partial report, the chairman, Mr. Alvord of Kansas, was introduced and presented the report. It found the temporary roll correct save in Michigan and Nebraska. In Nebraska the report seated the silver delegation headed by W. J. Bryan. This announcement was greeted with a storm of cheers. The committee asked for further time to decide the Michigan contest.

T. J. Mahoney, one of the gold delegates from Nebraska, made a brief speech from the stand. He and his colleagues, he said, well understood that they were to be thrown out, and at the head of the delegation they marched out. The report of the committee was adopted by a viva voce vote. Ex-Governor Russell of Massachusetts at first demanded a roll call, but subsequently withdrew it.

The band played while the wait for a decision in the Michigan case occurred. Then the Nebraska silver delegation came marching in, bearing on their shoulders their champion, William J. Bryan. A big banner accompanied the delegation. The Nebraskan was given a great ovation.

Governor Altgeld moved that the convention take a recess until 5 o'clock. The delegates were eager for work, and there were cries of "no, no."

Senator White explained that the committee on credentials had reported that it could not finish its work for three hours and that the convention could not adopt a platform without the titles to seats settled.

So, although Finley of Ohio moved to proceed, the adjournment was made.

Chairman Daniel called the convention to order again at 5:40 and announced that the committee on credentials was ready to report. When the reading clerk read the report seating four silver district delegates from Michigan, which changed the complexion of the delegation under the unit rule from gold to silver, there was considerable applause among the silver men on the floor. Ex-Congressman John C. Crosby of Massachusetts, on behalf of the minority of the committee, took the stage and earnestly protested against the decision of the majority. He spoke, he said, in behalf of 18 states. John H. Brannan, a Wisconsin gold delegate, followed with another protest.

Delegate F. M. Taylor of Arkansas defended the course of the majority of the committee.

Governor McLaurin of Mississippi also came to the defense of the committee. He accused the administration of

EX-GOVERNOR RUSSELL.

packing the Michigan convention. This raised a protest from the galleries which made the silver delegates mad and pandemonium reigned. At last Colonel Martin, the sergeant-at-arms, interposed from the platform and instructed the assistant sergeants-at-arms to summarily eject any one who interrupted proceedings. Senator McLaurin drifted into a discussion of the issue before the Democrats of Michigan, whereupon Delegate McDermott of New Jersey arose to a point of order.

"What happened 30 years ago," he shouted, "has nothing to do with the merits of this controversy." The galleries cheered and waved their handkerchiefs at this protest from the floor. The blood of the gold spectators was aroused.

Joseph F. Salisbury of Delaware opposed the report.

After Salisbury stepped to the front of the platform a stalwart, blonde mustached young man, with a red rose on the lapel of his summer coat.

"Gentlemen, I am the man they stole Michigan," he shouted in a tone that rang to the rafters. "Name, name," the galleries cried. "Stevenson," the young man yelled. His full name was Eliot G. Stevenson. He is the law partner of President Cleveland's friend and one time cabinet aide, Don Dickinson, and the man who with rounding up the federal officeholders to swing the Detroit convention for gold. first fight of the convention. It started over in front of the press seats to the left of the platform, where a stalwart policeman, through mistaken diligence, pounced upon a delegate from Illinois, who was attempting to enter the section allotted to the delegates. People climbed to their chairs everywhere and a small riot seemed on hand until the chairman pressed the button which signalled the band to play.

Senator Grady coolly paced the platform with hands in his trousers pockets while the band played, and when he could make himself heard remarked that he never had been able to speak in a convention without starting a fight. His exit set the hall to crying, "Vote," "Vote."

As the dusk fell the great Coliseum became glowing. Suddenly, at 7:30, the electric lights were turned on. There were almost 20,000 people in the amphitheater by this time, and the night scene was even more brilliant and inspiring than that of the day.

Ex-Congressman Weadock of Michigan, a sandy-haired man with a straw-colored moustache and imperial, concluded the debate in behalf of the minority.

Delegate O'Donnell of Colorado performed the same office for the majority. Just before Mr. O'Donnell began several hundred North boomers came up through the north entrance and created an enthusiastic demonstration for their candidate.

Chairman Daniel put the question first on the adoption of the minority report to confirm the sitting delegates in their title to seats. The roll was called. Alabama was the first state called and started a revolt against the majority.

Although a solid silver delegation, a challenge of her vote developed the fact that seven votes in the delegation favored the gold delegates. But under the unit rule Alabama's 22 votes were cast against the minority report. The gold men got 11 out of California's 18 silver votes, one cast by Senator White.

Indiana's silver delegation furnished 8 of their 30 votes for the gold delegates. Delegate Haldeman of the Kentucky delegation by a challenge uncovered two affirmative votes in that delegation. There were three votes in the Massachusetts delegation for seating the silver delegates and one in Maryland. Mr. Stevenson of Michigan cast the 28 votes of his state, in which there were 12 silver votes in favor of keeping the gold men in their seats. There was wild cheering when ex-Governor Flower cast the 72 votes of New York for the minority report. It continued for a full minute, when the cheering suddenly swelled into a roar. The gold delegates mounted their chairs and waved their handkerchiefs, while the galleries grew perfectly frantic with enthusiasm.

The silver men were infuriated. They were evidently convinced that the galleries were packed.

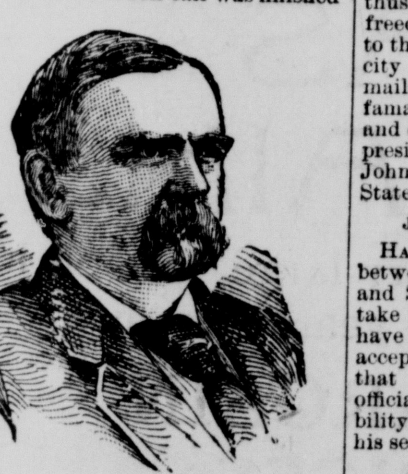

Chairman Daniels held up his hand for order, but he was not heeded. He ordered the clerk to call the roll, but that official's voice could not penetrate four feet into the whirlwind of sound. The silver men in the galleries hissed. The silver leaders on the floor were manifestly disturbed.

Governor Stone of Missouri moved hastily up to the stage to consult with Chairman Daniel to have the galleries cleared. Senator Cockrell worked his way around to where sat the Illinois delegation. Others moved hither and thither. It looked almost as if the silver men had been struck with panic. Suddenly Governor Altgeld got upon his chair and faced the chairman. His pale face was silhouetted against the royal purple standard of the Illinois delegation, and his long, lean arm was extended toward the chairman, appealing for recognition. The silver delegates regained their composure and everything became quiet. The demonstration lasted 15 minutes.

Sensor Daniel who had been facing the arena with set lips and folded arms, stretched out his hand.

He said "I shall direct the secretary to stop proceedings in this convention until order is restored," and then he sat down in his chair and folded his arms again.

Governor Altgeld shouted "I rise to a point of order. I desire to challenge the vote of Michigan. We are proceeding here under the rules of the Fifty-third congress—" His sentence was cut short here, more definitely was buried, and overwhelmed under a tempest of howls, groans, shrieks, hoots and hisses. It was two or three minutes before business began again and the chairman ruled that the point could not be raised until the roll call was finished.

GEORGE G. VEST.

Governor Altgeld began again, "they ask—" He got no further. The crowd overwhelmed him with their cries.

It was convention mob rule. The silver men attempted a counter demonstration when business had been taken up again and the favorable vote of Ohio was called, but their effort was but a feeble breath after the tempest for gold. The gold men took their turn again when Pennsylvania's vote was announced for them, but they were satisfied with a mild cheer. Other silver states being called, as the roll call proceeded, showed that silver men were jumping over factional traces on the issue.

The vote was announced—558 noes, 268 ayes, 3 not voting, 1 absent. Its announcement set the convention afire with another tremendous flame. The silver men had their turn in earnest.

Flags, newspapers, hats, handkerchiefs, the delegates seized them and waved them above their heads, tossed them high in the air; swung their flags madly and with all their strength and unremittingly howled. The states standards along the aisles were raised and wrenched from the bolts which held them to the floor to be elevated

high into the air. Bands played, but could not be heard.

The complexion of the scene had been changed. This time it was the gold leaders who sat mute with clouded brows. The generals of silver were beaming. Toward the end of the silver clamor some of the most hysterical westerners pulled off their coats and vests to wave. After 19 minutes, one minute more than the gold cheering, the silver men were satisfied.

When order was restored, then the majority report, which changed the Michigan delegation from gold to silver, was adopted without division.

The report of the committee on permanent organization was called for and Delegate Finley of Ohio, its chairman, made his way to the stage and read the list of permanent officers selected, which was headed by Senator White of California for chairman, and Thomas J. Cogan of Ohio for secretary.

Mr. McKnight, one of the silver delegates from Michigan, protested against the national committee, Mr. Stevenson, who had been selected by the delegation while it was still gold in complexion, and asked that all selections made by the delegation be withdrawn. Nebraska also protested against the selections of the unseated delegations. The selections of the new Nebraska delegation were substituted and the Michigan selections were withdrawn. Mr. Stevenson, on the latter motion, attempted to secure a roll call, but could find no delegation to second his demand.

Mr. Finley, Senator Vest of Missouri and Judge McConnell of Illinois were appointed a committee to escort Senator White to the platform.

The appearance of the distinguished committee on the platform with their charge was the signal for a most cordial reception. Temporary Chairman Daniel, in yielding the gavel to California senator, made a most graceful speech, thanking the convention for its courtesy. Senator White's speech was brief.

Then came the inevitable gavel presentation. It was made by W. A. Clark of Montana. It was a handsome silver mallet, given in the name of the greatest mining state of the Union, Mr. Clark said. The motion for adjournment until 10 o'clock this morning was then adopted.

A SENSATIONAL SHOOTING.

Woman's Discarded Lover Wounds Her Husband and Suicide.

NEW YORK, July 9.—William H. Johnson of Chicago has shot in the head and perhaps mortally wounded William H. Sutton of this city on the sidewalk at Broadway and Twentieth street, while the latter was attempting to prevent him from shooting Mrs. Sutton.

Then, as if to intimidate the large crowd, in which were many women and children, he fired a shot into the air and ran in Twentieth street towards Fifth avenue. The crowd followed, and at Fifth avenue, when Sutton attempted to double back, he yelled for it to give way, and fired his pistol at random.

One bullet hit Don Carlos, a grape peddler, in the thigh and he fell slightly wounded. The crowd fell back but Johnson turned his flight toward Sixth avenue. He halted when half way there and glanced back. The crowd was coming fast and a policeman was firing into the air. Quickly Johnson fired a bullet into his temple and was dead when the first of the crowd reached him.

Mrs. Sutton told the police that she and Johnson had lived in northside in Chicago as man and wife. She came here a few days ago and rejoined her husband. Johnson followed and asked her to return to him. She refused, and he said he would kill her if he saw her with her husband.

THE CHRISTIAN ENDEAVORERS.

National Convention Opened in Washington This Morning.

WASHINGTON, July 9.—The national Christian Endeavor convention opened here today. Fully 50,000 visitors are here.

Spiritual preparatory services preliminary to the formal opening of the convention were held simultaneously in 22 of the largest churches in the city last night.

The chief topic was "Deepening the Spiritual Life," and remarks were made by the visiting clergymen.

Enthusiastic Silverite Arrested.

COUNCIL BLUFFS, Ia., July 9.—Enthusiasm because of free silver and freedom in expressing his views has led to the arrest of Dr. J. L. Pearson of this city on the charge of having used force and threats for the purpose of making defamatory and incendiary utterances of and concerning one, Grover Cleveland, president of the United States, and John Sherman, a senator of the United States, on a postal card.

Johnson Will Not Fight a Duel.

HAVANA, July 9.—The proposed duel between General Bradley T. Johnson and Senor Manuel Ampudia will not take place, as friends of the former have interfered and dissuaded him from accepting the challenge, on the ground that it was irregular. Besides, semi-official influence will now, in all probability, prevent Ampudia from sending his seconds to General Johnson.

Lowndes After the Lynchers.

BALTIMORE, July 9.—Governor Lowndes has decided to offer a reward of \$1,000 each for evidence which will lead to the arrest and conviction of the men who lynched Joseph Cocking at Port Tobacco, June 27, and Sidney Randolph at Rockville, Montgomery county, on July 4.

Cleveland Baseball Magnate Fighting.

CLEVELAND, July 9.—Frank de Hass Robinson, of the Cleveland baseball club, has secured an injunction restraining the National League from collecting the fines against Captain Tebeau or any member of the Cleveland club, which were imposed at Louisville.

Dr. McDowell Beaten.

HENLEY, England, July 9.—Dr. McDowell, the Chicago oarsman, in the sixth heat for the Diamond sculls, was beaten by R. K. Beaumont, of the Burton Rowing club, by four lengths.

Condition of the Treasury.

WASHINGTON, July 9.—The statement of the condition of the treasury shows: Available cash balance, \$262,273,488; gold reserve, \$100,734,185.

The Weather.

Showers, followed by clearing; brisk to high northeasterly winds.

TEXT OF PLATFORM.

Principles Promulgated by the Democratic Convention.

A FREE SILVER PLANK ADOPTED.

Declaration Made For Tariff For Revenue Only, But Tariff Agitation Opposed Until Money Question Is Settled—Income Tax Favored.

CHICAGO, July 9.—The platform adopted by the Democratic national convention is as follows:

We, the Democrats of the United States in national convention assembled, do reaffirm our allegiance to those great essential principles of justice and liberty upon which our institutions are founded, and which the Democratic party has advocated from Jefferson's time to our own—freedom of speech, freedom of the press, freedom of conscience, the preservation of personal rights, the equality of all citizens before the law and the faithful observance of constitutional limitations.

During all these years the Democratic party has resisted the tendency of selfish interests to the centralization of governmental power, and steadfastly maintained the integrity of the dual scheme of government established by the founders of this republic of local, state and national government. Under its guidance the great principle of local self-government has found its best expression in the maintenance of the rights of the states and in its assertion of the necessity of the federal government to the exercise of the powers granted by the constitution of the United States.

Recognizing that the money question is paramount to all others at this time, we give attention to the fact that the federal constitution names silver and gold together as the money metals of the United States, and that the first coinage law passed by congress under the constitution made the silver dollar the monetary unit of value and admitted gold to free coinage at a ratio based upon the silver dollar unit.

We declare that the act of 1873 demoralizing silver without the knowledge or approval of the American people has resulted in the depreciation of gold and a corresponding fall in the prices of commodities produced by the people; a heavy increase in the burden of taxation and of all debts, public and private; the enrichment of the money lending class at home and abroad; prostration of industry and impoverishment of the people.

We are unalterably opposed to the monetary policy which has locked fast the paralysis of an industrial people in the paralysis of hard times. Gold monometallism is a British policy, and its adoption has brought other nations into financial servitude to London. It is not only un-American, but anti-American, and it can be fastened upon the United States, only by the adding of that spirit and love of liberty which proclaimed our political independence in 1776 and won it in the War of the Revolution.

We demand the free and unlimited coinage of both gold and silver at the present legal ratio of 16 to 1, without waiting for the aid or consent of any other nation. We demand that the standard silver dollar shall be a full legal tender, equally with gold, for all debts, public and private, and that any change in the present standard of value shall be made by the action of congress, and not by private contract.

We are opposed to the policy and practice of surrendering to the holders of the obligations of the United States, the option reserved by law to the government of redeeming such obligations in either silver or gold or coin.

We are opposed to the issuing of interest-bearing bonds of the United States in time of peace, and condemn the trafficking with banking syndicates which, in exchange for bonds and at an enormous profit to themselves, supply to the treasury department the federal policy of gold monometallism.

Congress alone has the power to coin and issue money and President Jackson declared that this power could not be delegated to corporations or individuals. We therefore, demand that the power to issue notes to circulate as money be taken from the National banks and that all paper money shall be issued directly by the treasury department be redeemable in coin and receivable for all debts, public and private.

We hold that tariff duties should be levied for purposes of revenue, such duties to be so adjusted as to operate equally throughout the country, and not discriminately between class or section, and that taxation should be limited by the needs of the government. We denounce as disturbing to business the Republican threat to restore the McKinley law, which has been twice condemned by the people in national elections and which, enacted under the false plea of protection to home industry, proved a prolific breeder of trusts and monopolies, enriched the few at the expense of the many, restricted trade and deprived the producers of the great American staples of access to their natural markets. Until the money question is settled we are opposed to any agitation for further changes in our tariff laws, except such as are necessary to make up any deficit in revenue caused by the adverse decision of the supreme court on the income tax. But for this decision by the supreme court there would be no deficit in the revenue under the law passed by a Democratic congress in strict pursuance of the uniform decisions of that court for nearly 100 years, that court having under that decision sustained constitutionally the enactment which has been overruled by the ablest judges who have ever sat on that bench. We declare that it is the duty of congress to use all the constitutional power which remains after that decision, or which may come from its reversal by the court, so that hereafter be constituted, so that the burdens of taxation may be equally and impartially laid to the end that wealth may bear its due proportion of the expenses of the government.

We hold that the most efficient way of protecting American labor is to prevent the importation of foreign pauper labor to compete with it in the home market, and that the value of the home market to our American farmers and artisans is greatly reduced by a vicious monetary system, which depresses the prices of their products below the cost of production and thus deprives them of the means of purchasing the products of our home manufactures.

The absorption of wealth by the few, the consolidation of our leading railroad systems and the formation of trusts and pools require a stricter control by the federal government of those arteries of commerce. We demand the enlargement of the powers of the interstate commerce commission and such restrictions and guarantees in the control of railroads as will protect the people from robbery and oppression.

We denounce the profligate waste of the money wrung from the people by oppressive taxation and the lavish appropriations of recent Republican congresses, which have kept taxes high while the labor that pays them is unemployed and the products of the people's toil are depressed in price till they no longer repay the cost of production. We demand a return to that simplicity and economy which best befits a Democratic government, and a re-

CONTINUED ON NEXT PAGE.

LOCAL BREVITIES.

John Bloom had his household effects shipped to Empire this morning.

Harry Albright tore the nail from his middle finger while cleaning a bicycle yesterday.

Work on the Peach Tree alley sewer is progressing rapidly, and it is almost completed.

A party of young married people will hold a picnic at Columbian park on Friday evening.

Elmer Ralston, who went to Denver some time ago for his health, returned home greatly improved.

At the American and Imperial camps, on the little Beaver, 17 turtles were caught yesterday by the boys.

A big fight is reported as having taken place in Jethro Tuesday night, the cause of the row being too much whisky.

The Eastern Star has chartered the Helen Bridges, and will take a ride up the placid Ohio tomorrow afternoon.

Mr. A. A. Golden and Miss Emma L. Hughes were married last evening at the parsonage of the First M. E. church.

The McKinley Juniors is the name of a camping club that left this morning to spend a few weeks at Grimm's bridge.

The decorating shop of Knowles, Taylor & Knowles, is being overhauled and repaired. The decorators will resume work Monday.

The Akron pottery will resume operations Monday, and many of the employees who have been visiting friends in this city are returning home.

The Catholic Temperance Association picnic given at Rock Spring yesterday was one of the most enjoyable of the season, and was largely attended.

Inspector Fickes, who has been employed on the bridge, will soon leave for a town in Pennsylvania, where Engineer Laub has charge of the construction of a glass factory.

The board of directors of the Young Men's Christian Association did not meet last night, as there was not a quorum present. The meeting will be held on Friday evening.

Miss Julia Buxton, a teacher in the Methodist Episcopal Sabbath school, entertained the scholars of her class yesterday in a delightful little picnic at Riverside park, West End.

Word was received yesterday from Dick Albright, stating that the sojourners at Mountain Lake park were enjoying themselves to the utmost, and that the meetings are very successful.

Aaron Moore and Charles Brown left this morning for Turkeyfoot oil field, where they will be engaged drilling wells for the Ohio Valley Gas company. The wells recently opened continue to be good producers.

A well known young club man this morning purchased a cheap horse for driving purposes, in order that he can give it away in the fall. The animal has seen its best days, having been driven in the city for the past 15 years.

The Turners telephoned to the city this morning that they had won three single and one class prize at Steubenville, and for Manley's band to meet them at the 4:20 train. The party were splendidly entertained, and had an unusually pleasant time.

"Shorty" Moore went to New Cumberland this morning, where he has been employed by John Williams to aid in the drilling of seven oil wells, for which the latter gentleman has secured the contract. The wells have been located several miles back of the town.

John Firth returned to East Palestine last night, after spending the Fourth with his parents in this city. He says that a kiln is being torn down at the pottery of that place and will be replaced with a larger one. A new kiln was recently added to the plant.

The tug Rescue came down from Pittsburgh last night, and returned with the boats used at the bridge. The river is a little lower today, but the rain of last night will cause a swell. The Ben Hur will be down tonight, and the Bedford and Lorena will pass up this afternoon.

Bill Farmer dropped into the mayor's office yesterday in search of vengeance. He had been persecuted, he said, by a crowd of boys who persisted in swearing at him, and heaping all sorts of abuse upon his devoted head. He appealed to Chief Johnson, and was promised the police would look after the youngsters.

A young man, said to be from Wells-ville, almost collided with a buggy at the corner of Fifth and Jefferson streets yesterday afternoon. He was turning the corner on his wheel, and to escape serious injury allowed himself to fall. His trousers were torn, and his knee cut.

The other evening as two young men were skiff riding they heard screams, which seemed to come from the middle of the river. Thinking some one was drowning they rowed to the scene as fast as possible, and discovered a young man and his best girl were taking a ride, but the lady didn't like the sport. Hence the screams.

The office boy, Garfield Adams, gave an exhibition of fancy bicycle riding in the Diamond this morning. He was riding along like a king when he ran into a dog, with the result that Garfield and wheel came down together. The boy slipped along in the mud for a short distance, and is now thinking of applying for a position cleaning streets.

first fight of the convention. It started over in front of the press seats to the left of the platform, where a stalwart policeman, through mistaken diligence, pointed upon a delegate from Illinois, who was attempting to enter the section allotted to the delegates. People climbed to their chairs everywhere and a small riot seemed on hand until the chairman pressed the button which signalled the band to play.

Senator Grady coolly paced the platform with his hands in his trousers pockets while the band played, and when he could make himself heard remarked that he never had been able to speak in a convention without starting a fight. His exit set the hall to crying, "Vote," "vote."

As the dusk fell the great Coliseum became glowing. Suddenly, at 7:30, the electric lights were turned on. There were almost 30,000 people in the amphitheater by this time, and the night scene was even more brilliant and inspiring than that of the day.

Ex-Congressman Woodcock of Michigan, a sandy-haired man with a straw-colored moustache and imperial, concluded the debate in behalf of the minority.

Delegate O'Donnell of Colorado performed the same office for the majority. Just before Mr. O'Donnell began several hundred Bland boomers came up through the north entrance and created an enthusiastic demonstration for their candidate.

Chairman Daniel put the question first on the adoption of the minority report to confirm the sitting delegates in their title to seats. The roll was called. Alabama was the first state called and started a revolt against the majority. Although a solid silver delegation of a challenge of her vote developed the fact that seven votes in the delegation favored the gold delegates. But under the unit rule Alabama's 22 votes were cast against the minority report. The gold men got 11 out of California's 18 silver votes, one cast by Senator White.

Indiana's silver delegation furnished 8 of their 30 votes for the gold delegates. Delegate Haldeman of the Kentucky delegation by a challenge uncovered two affirmative votes in that delegation. There were three votes in the Massachusetts delegation for seating the silver delegates and one in Maryland. Mr. Stevenson of Michigan cast the 28 votes of his state, in which there were 12 silver votes in favor of keeping the gold men in their seats. There was wild cheering when ex-Governor Flower cast the 72 votes of New York for the minority report. It continued for a full minute, when the cheering suddenly swelled into a roar. The gold delegates mounted their chairs and waved their handkerchiefs, while the galleries grew perfectly frantic with enthusiasm.

The silver men were infuriated. They were evidently convinced that the galleries were packed.

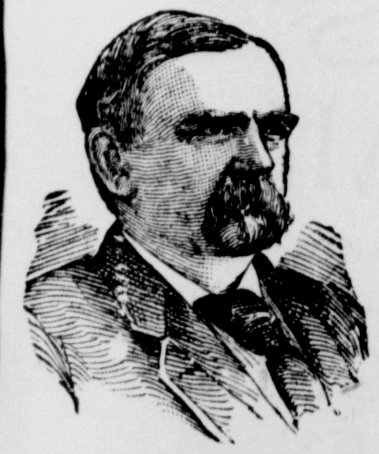

Chairman Daniels held up his hand for order, but he was not heeded. He ordered the clerk to call the roll, but that official's voice could not penetrate four feet into the whirlwind of sound. The silver men in the galleries hissed. The silver leaders on the floor were manifestly disturbed.

Governor Stone of Missouri moved hastily up to the stage to consult with Chairman Daniel to have the galleries cleared. Senator Cockrell worked his way around to where sat the Illinois delegation. Others moved hither and thither. It looked almost as if the silver men had been stricken with panic. Suddenly Governor Altgeld got upon his chair and faced the chairman. His pale face was silhouetted against the royal purple standard of the Illinois delegation, and his long, lean arm was extended toward the chairman, appealing for recognition. The silver delegates regained their composure and everything became quiet. The demonstration lasted 15 minutes.

Sensor Daniel who had been facing the arena with set lips and folded arms, stretched out his hand.

He said "I shall direct the secretary to stop proceedings in this convention until order is restored," and then he sat down in his chair and folded his arms again.

Governor Altgeld shouted "I rise to a point of order. I desire to challenge the vote of Michigan. We are proceeding here under the rules of the Fifty-third congress." His sentence was cut short here, more definitely was buried, and overwhelmed under a tempest of howls, groans, shrieks, hoots and hisses. It was two or three minutes before business began again and the chairman ruled that the point could not be raised until the roll call was finished.

GEORGE G. VEST.

Governor Altgeld began again, "they ask—" He got no further. The crowd overwhelmed him with their cries. It was convention mob rule.

The silver men attempted a counter demonstration when business had been taken up again and the favorable vote of Ohio was called, but their effort was but a feeble breath after the tempest for gold. The gold men took their turn announced for Pennsylvania's vote was announced for them, but they were satisfied with a mild cheer. TEXT OF PLATFORM.

Principles Promulgated by the Democratic Convention.

A FREE SILVER PLANK ADOPTED.

Declaration Made For Tariff For Revenue Only, But Tariff Agitation Opposed Until Money Question Is Settled—Income Tax Favored.

CHICAGO, July 9.—The platform adopted by the Democratic national convention is as follows:

We, the Democrats of the United States in national convention assembled, do reaffirm our allegiance to those great essential principles of justice and liberty upon which our institutions are founded, and which the Democratic party has advocated from Jefferson's time to our own—freedom of speech, freedom of the press, freedom of conscience, the preservation of personal rights, the equality of all citizens before the law and the faithful observance of constitutional limitations.

During all these years the Democratic party has resisted the tendency of selfish interests to the centralization of governmental power, and steadfastly maintained the integrity of the dual scheme of government established by the founders of this republic of republics. Under its guidance the great principle of local self government has found its best expression in the maintenance of the rights of the states and in the assertion of the necessity of confining the general government to the exercise of the powers granted by the constitution of the United States.

Recognizing that the money question is paramount to all others at this time, we invite attention to the fact that the federal constitution names silver and gold together as the money metals of the United States, and that the first coinage law passed by congress under the constitution made the silver dollar the monetary unit of value and admitted gold to free coinage at a ratio based upon the silver dollar unit.

We declare that the act of 1873 demonetizing silver without the knowledge or approval of the American people has resulted in the appreciation of gold and a corresponding fall in the prices of commodities produced by the people; a heavy increase in the burden of taxation and of all debts, public and private; the enrichment of the money lending class at home and abroad; prostration of industry and impoverishment of the people.

We are unalterably opposed to the monopolism, which has locked fast the prosperity of an industrial people in the paralysis of hard times. Gold monopolism is a British policy, and its adoption has brought other nations into financial servitude to London. It is not only anti-American, but anti-American, and it can be fastened upon the United States, only by the stifling of that spirit and love of liberty which proclaimed our political independence in 1776 and won it in the War of the Revolution.

We demand the free and unlimited coinage of both gold and silver at the present legal ratio of 16 to 1, without waiting for the aid or consent of any other nation. We demand that the standard silver dollar shall be a full legal tender, equally with gold, for all debts, public and private, and we favor legislation which will prevent for the future the demonetization of any kind of legal tender money by private contract.

We are opposed to the policy and practice of surrendering to the holders of the obligations of the United States, the option reserved by law to the government of redeeming such obligations in either silver coin or gold coin.

We are opposed to the issuing of interest-bearing bonds of the United States in time of peace, and condemn the trafficking with banking syndicates which, in exchange for bonds and at an enormous profit to themselves, supply the federal treasury with gold to maintain the policy of gold monopolism.

Congress alone has the power to coin and issue money and President Jackson declared that this power could not be delegated to corporations or individuals. We, therefore, demand that the power to issue notes to circulate as money be taken from the National banks and that all paper money shall be issued directly by the treasury department be redeemable in coin and receivable for all debts, public and private.

We hold that tariff duties should be levied for purposes of revenue, such duties to be so adjusted as to operate equally throughout the country, and not discriminately between class or section, and that taxation should be limited by the needs of the government, honestly and economically administered. We denounce as disturbing to business the Republican threat to restore the McKinley law, which has been twice condemned by the people in national elections and which, enacted under the false plea of protection to home industry proved a prolific breeder of trusts and monopolies, enriched the few at the expense of the many, restricted trade and deprived the producers of the great American staples of access to their natural markets. Until the money question is settled we are opposed to any agitation for further changes in our tariff laws, except such as are necessary to make up the deficit in revenue caused by the adverse decision of the supreme court on the income tax. But for this decision by the supreme court there would be no deficit in the revenue under the law passed by a Democratic congress in strict pursuance of the uniform decisions of that court for nearly 100 years, that court having under that decision sustained constitutional objections to its enactment which have been overruled by the ablest judges who have ever sat on that bench. We declare that it is the duty of congress to use all the constitutional power which remains after that decision, or which may come from its reversal by the court, as it may hereafter be constituted so that the burdens of taxation may be equally and impartially laid to the end that wealth may bear its due proportion of the expenses of the government.

We hold that the most efficient way of protecting American labor is to prevent the importation of foreign pauper labor to compete with it in the home market, and that the value of the home market to our American farmers and artisans is greatly reduced by a vicious monetary system, which depresses the prices of their products below the cost of production and thus deprives them of the means of purchasing the products of our home manufactures.

The absorption of wealth by the few, the consolidation of our leading railroad systems and the formation of trusts and pools require a stricter control by the federal government of those arteries of commerce. We demand the enlargement of the powers of the interstate commerce commission and such restrictions and guarantees in the control of railroads as will protect the people from robbery and oppression.

We denounce the profligate waste of the money wrung from the people by oppressive taxation and the lavish appropriations of recent Republican congresses, which have kept taxes high while the labor that pays them is unemployed, and the products of the peoples' toil are depressed in price till they no longer repay the cost of production. We demand a return to that simplicity and economy which best befits a Democratic government, and a

LOCAL BREVITIES.

John Bloom had his household effects shipped to Empire this morning.

Harry Albright tore the nail from his middle finger while cleaning a bicycle yesterday.

Work on the Peach Tree alley sewer is progressing rapidly, and it is almost completed.

A party of young married people will hold a picnic at Columbian park on Friday evening.

Elmer Ralston, who went to Denver some time ago for his health, returned home greatly improved.

At the American and Imperial camps, on the little Beaver, 17 turtles were caught yesterday by the boys.

A big fight is reported as having taken place in Jethro Tuesday night, the cause of the row being too much whisky.

The Eastern Star has chartered the Helen Bridges, and will take a ride up the placid Ohio tomorrow afternoon.

Mr. A. A. Golden and Miss Emma L. Hughes were married last evening at the parsonage of the First M. E. church.

The McKinley Juniors is the name of a camping club that left this morning to spend a few weeks at Grimm's bridge.

The decorating shop of Knowles, Taylor & Knowles, is being overhauled and repaired. The decorators will resume work, Monday.

The Akron pottery will resume operations Monday, and many of the employees who have been visiting friends in this city are returning home.

The Catholic Temperance Association picnic given at Rock Spring yesterday was one of the most enjoyable of the season, and was largely attended.

Inspector Fickes, who has been employed on the bridge, will soon leave for a town in Pennsylvania, where Engineer Laub has charge of the construction of a glass factory.

The board of directors of the Young Men's Christian Association did not meet last night, as there was not a quorum present. The meeting will be held on Friday evening.

Miss Julia Buxton, a teacher in the Methodist Episcopal Sabbath school, entertained the scholars of her class yesterday in a delightful little picnic at Riverside park, West End.

Word was received yesterday from Dick Albright, stating that the sojourners at Mountain Lake park were enjoying themselves to the utmost, and that the meetings are very successful.

Aaron Moore and Charles Brown left this morning for Turkeyfoot oil field, where they will be engaged drilling wells for the Ohio Valley Gas company. The wells recently opened continue to be good producers.

A well known young club man this morning purchased a cheap horse for driving purposes, in order that he can give it away in the fall. The animal has seen its best days, having been driven in the city for the past 15 years.

The Turners telephoned to the city this morning that they had won three single and one class prize at Steubenville, and for Manley's band to meet them at the 4:20 train. The party were splendidly entertained, and had an unusually pleasant time.

"Shorty" Moore went to New Cumberland this morning, where he has been employed by John Williams to aid in the drilling of seven oil wells, for which the latter gentleman has secured the contract. The wells have been located several miles back of the town.

John Firth returned to East Palestine last night, after spending the Fourth with his parents in this city. He says that a kiln is being torn down at the pottery of that place and will be replaced with a larger one. A new kiln was recently added to the plant.

The tug Rescue came down from Pittsburg last night, and returned with the boats used at the bridge. The river is a little lower today, but the rain of last night will cause a swell. The Bon Hur will be down tonight, and the Bedford and Lorena will pass up this afternoon.

Bill Farmer dropped into the mayor's office yesterday in search of vengeance. He had been persecuted, he said, by a crowd of boys who persisted in swearing at him, and heaping all sorts of abuse upon his devoted head. He appealed to Chief Johnson, and was promised the police would look after the youngsters.

A young man, said to be from Wells-ville, almost collided with a buggy at the corner of Fifth and Jefferson streets yesterday afternoon. He was turning the corner on his wheel, and to escape serious injury allowed himself to fall. His trousers were torn, and his knee cut.

The other evening as two young men were skiff riding they heard screams, which seemed to come from the middle of the river. Thinking some one was drowning they rowed to the scene as fast as possible, and discovered a young man and his best girl were taking a ride, but the lady didn't like the sport. Hence the screams.

The office boy, Garfield Adams, gave an exhibition of fancy bicycle riding in the Diamond this morning. He was riding along like a king when he ran into a dog, with the result that Garfield and wheel came down together. The boy slipped along in the mud for a short distance, and is now thinking of applying for a position cleaning streets.

Caution about the Use and Selection of Spectacles

"Persons having normal vision will be able to read this print as a statement of fact from the eye with ease and confidence. The conditions of the eye which cause defective vision are of two kinds: 1. The eye may be defective in its structure, or 2. The eye may be defective in its function. In the first case, the eye is diseased, and the patient should consult a physician. In the second case, the eye is healthy, but the vision is defective, and the patient should consult a optician. The optician will examine the eye and determine the cause of the defect. If the defect is due to a refractive error, the optician will prescribe a pair of spectacles. If the defect is due to a muscular defect, the optician will prescribe a pair of spectacles. If the defect is due to a disease of the eye, the optician will refer the patient to a physician. The optician will also examine the eyes of children, and will prescribe spectacles if necessary. The optician will also examine the eyes of old people, and will prescribe spectacles if necessary. The optician will also examine the eyes of people who are suffering from eye strain, and will prescribe spectacles if necessary. The optician will also examine the eyes of people who are suffering from eye disease, and will prescribe spectacles if necessary. The optician will also examine the eyes of people who are suffering from eye injury, and will prescribe spectacles if necessary. The optician will also examine the eyes of people who are suffering from eye infection, and will prescribe spectacles if necessary. The optician will also examine the eyes of people who are suffering from eye inflammation, and will prescribe spectacles if necessary. The Liverpool Club Will go to
Niles Tomorrow.

IN CONDITION TO WIN OUT

Arrangements Being Made for Games With
the Carnegie Athletic Association—Why
Mercer Lost in Pittsburgh—All the Base-
ball News.

The East Liverpool team will leave in the morning for Niles, and will take with them the following players: Finch and Baxter, catchers; McShane and Frank, pitchers; J. Reark, short; Heckathorne, first; Kennedy, second; Carey, third; Twaddle, left; McNutt, middle; C. Reark, right. The new pitcher the club has with them is the left handed man who occupied the box for the Richards on Friday afternoon. He is a good ball player, and will undoubtedly strengthen the team.

Manager Morris is at present corresponding with the Carnegie Athletic club, of Braddock, for two games to be played on next Wednesday and Thursday. It is to be hoped he will meet with success, as the Carnegie Athletic club is one of the strongest amateur teams around Pittsburgh, and would give the home club a hard hustle for victory.

Hester, Gillespie, Twaddle and H. McCurran will play with Lisbon the first of next week against Malvern and Carrollton.

Mercer lost to Pittsburgh yesterday, and was compelled to retire from the box in the sixth inning. In speaking of the game a Pittsburgh paper says: "Mercer, the star pitcher of the Washingtonians, and one of the great twirlers in the league, was thumped and bumped all over the lot, and had to retire at the end of the sixth inning." Liverpool people, who went up to see the game, say that "Winnie" became disgusted in the first inning, and didn't try to pitch as Washington started to play for rain. The California Hollow team was defeated by the Reds yesterday by a score of 18 to 8. The batteries were Scott and Watkins, and Alcott and Cartwright.

D. McCurran will play Saturday with the Crescents, of Wellsville, in a game against Ironside.

The Eclipse team will return to Sharon in August for three games, and expect to win all of them.

The West End Gyms challenge the Eclipse team for a series of three games, to be played on the home grounds at any time within the next three weeks. The Gyms would also like to hear from any home team, but the Eclipse club are preferred. Address all answers to Thomas Twaddle.

A story was going the rounds last night to the effect that a man named Smith, of Oil City, was here yesterday with \$300 to put up as a forfeit that the Oil City club could beat any team picked from the best ball players of the city, Mercer excepted. It was said that he had seen Manager Morris' challenge, and was sent down here for the purpose of getting a game. From the fact that the gentleman did not call on Manager Morris, it is probable that the story is a fake of the simplest kind.

A SMALL AMOUNT.

But the Firm Brought Suit For It In Lis-
bon This Morning.

Lisbon, July 9. [Special]—David W. Johnson and William Mickey this morning sued Emily J. Mountford, of East Liverpool, to recover a judgment for \$44.50, and an order to sell the Mountford property in that city to obtain the amount. Three years ago, when the plaintiffs were in business under the firm name of Johnson & Mickey, they were engaged to furnish material and repair a dwelling house belonging to the defendant, for which work she never paid. The Union Planing Mill company, the Potters' Building and Savings company, G. H. Clara A. and John S. Mountford and Walter Burrows each claim some interest in the property.

WILLIAM BARKER ILL.

An Aged Resident is in a Critical Con-
dition.

William Barker, an aged resident of the West End, is in a critical condition as the result of a stroke of paralysis received two years ago. He has lost the use of his limbs, and has not walked for several months. The aged sufferer is unable to speak, and can only make known his wants to the family by means of signs. A short time ago it was thought that he would die, but he rallied temporarily, although still very ill.

When You Take Your Vacation

The most necessary article to have with you (after your pocketbook) is a bottle of Foley's Colic and Diarrhoea cure. It is an absolute prevention or cure of all derangements of the bowels caused by a change of water. You are likely to need it.

For sale at Bulger's and Reed's drug stores.

Seaside Excursions Commence Soon.

July 9, from Steubenville, is date of first Pennsylvania line seashore excursion at round trip rate of \$10. Good to Atlantic City, Cape May and other popular resorts. Address J. M. Reynolds, ticket agent, Steubenville, for details.

A cream of tartar baking powder. Highest of all in leavening strength. Latest United States Government Food Report.

form ties down its nominee to a single ratio—that of 16 to 1. Other ratios, he thinks, are better. He is sad, the platform contains no word in favor of international bimetalism, and points out the danger to business and party if the utterance on the financial question is endorsed. He is cheered at times, but there is no hissing, although some delegates look anything but cheerful under his strong and cutting argument. He opposes the platform because it makes difficulties for the eastern Democrats too great in the coming struggle. He begs them not to put the eastern men in a position where their hands will be tied. He finishes while the crowd are cheering, and there is a great demonstration.

As the NEWS REVIEW goes to press Senator Vilas ascends the platform, and begins to speak.

ANOTHER ROBBERY.

A Second Street Man Was the Victim
This Time.

The house of a Second street resident, near the passenger depot, was entered Tuesday night by thieves, and a quantity of provisions stolen. The garden of an adjoining neighbor was also visited, and vegetables carried off. A number of petty robberies, it is reported, have taken place in this vicinity, and the residents have a well defined suspicion of the identity of the guilty parties.

HUNTING HECKATHORN.

The Police Thought They Had Him This
Morning.

Word came to the fire station this morning that Heckathorn, the young man so badly wanted for complicity in the West End holdup, was seen in the vicinity of the Union Planing mill. Several officers immediately repaired to the spot, and instead of the bold youth they found his brother. When he saw the officers he affected an air of comical indifference, and smiled blandly.

For Sale.

Two marble top tables, one writing desk, one very handsome, hard wood, plush tete-a-tete, two hanging lamps, one handsome parlor or stand lamp, one small stand, several yards of linoleum, fourteen window shades and fixtures, and thirteen and one-half yards of new hall carpet, small gas stove. Call at 189 Elm street, rear of Vodrey's pottery, at once.

Attention, Old Soldiers!

The manufacturers have instructed Bulger and Reed to give a bottle of 25 cent size of Foley's Colic and Diarrhoea cure free to the first soldier of the civil war that applies for same. It is the great remedy for Chronic Diarrhoea, Cramp Colic and all bowel complaints.

For sale at Bulger's and Reed's drug stores.

Opening a New Field.

The Ohio Valley company this afternoon located a number of wells near Cannon's Mill, and will begin drilling at once. The company have leased 4,000 acres in that section.

Don't Stop Him!

He had a bad attack of colic and is making for Bulger's and Reed's drug store after a bottle of Foley's Diarrhoea and Colic cure. Twenty-five and 50 cents.

For sale at Bulger's and Reed's drug stores.

Not Represented.

The Clerks National Protective association is in session at Denver, Col., but the local branch of the organization is not represented.

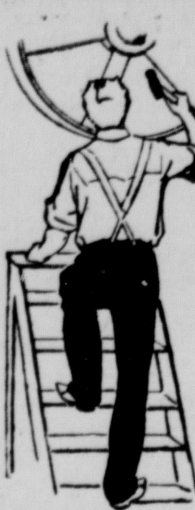

Wonderful! Marvelous!

Are expressions frequently heard about cures effected by Foley's Kidney cure. Do not fail to try this great remedy for any kidney trouble.

For sale at Bulger's and Reed's drug stores.

Any citizen of the United States may file in the patent office a claim to a partial invention, stating that he has not yet completed it and praying protection until he shall have had time to bring it to perfection.

WANTED—GOOD GIRL FOR GENERAL housework. O. H. Sebring, 173 Wash- ington street.

A big factory was brought to a standstill the other day for want of a common shingle-nail. The trouble was a mystery at first. Even the boss mechanic could not tell what was the matter. They sent for a high-priced expert who charged ten dollars an hour. All he said was: "Gimme a nail." He drove it in the right place, and in two minutes the whole factory was going again.

That's the way with the machinery of the human body. When the stomach and bowels are wrong what seems a mere trifle, blocks the whole system. Every part of the body feels the effects of a little constipation. The head aches, the mouth tastes bad; the stomach is distressed, the liver is congested and torpid; you feel sluggish and miserable and down-hearted; the energies are completely paralyzed—all for want of a little help to regulate the stomach and bowels. What you want is Dr. Pierce's Pleasant Pellets. They will make you regular and you keep so; they act in a comfortable natural way, not violently but surely. They give the intestines power to move naturally, and also tone the stomach and liver. You don't become a slave to their use, they cure you so you stay cured. If a druggist makes more money on some violent purging pill he may try to sell it to you. Don't let him.

You will be helped to a thorough understanding of your own body in every stage of health and disease by Dr. Pierce's Common Sense Medical Adviser. This is a great 1008 page book, in plain English and replete with illustrations. The first edition of 50,000 copies was sold for \$1.50 each. The profits were devoted to publishing the present edition of half a million free copies, and to the grant to everyone who sends 21 one-cent stamps to cover cost of mailing only. Address: World's Dispensary Medical Association, No. 663 Main Street, Buffalo, N. Y.

PERSONAL MENTION.

—Miss Sue Thompson is a Pittsburgh visitor today.

—Mrs. C. N. Everson, of Calkutta road, is very ill.

—Doctor Laughlin is in Steubenville on business today.

—Samuel Douglass is a Pittsburgh business visitor today.

—George Preston returned to Akron yesterday, after a brief visit here.

—Frank Mingrove has gone to Bellaire to spend a week with relatives.

—Thomas Price, of New Cumberland, visited friends in the city yesterday.

—S. E. Thompson returned to Pittsburgh last night after a brief visit here.

—George Earl and James McGonigal went to Salineville this morning to visit friends.

—Mrs. J. E. Mackintosh left yesterday for a six weeks' visit with friends in the country.

—Councilman Stewart and wife are spending a few days with relatives near Hookstown.

—Will Kinsey and wife have arrived home after a brief visit with friends near Matamoras.

—Prof. E. C. Melvin, who has been spending a few days with his uncle, J. C. Nicholls, left on the noon train for his home.

—Miss Tillie Copestick left this morning for Trenton. She will go from there to Atlantic City, where she will spend three weeks.

Interstate Games Scheduled Today.

Toledo at Saginaw; Ft. Wayne at Jackson; New Castle at Wheeling and Youngstown at Washington.

TEXT OF PLATFORM.

CONTINUED FROM THIRD PAGE.

duction in the number of useless offices, the salaries of which drain the substance of the people.

We denounce arbitrary interference by federal authorities in local affairs as a violation of the constitution of the United States and a crime against free institutions, and we especially object to government by injunction as a new and highly dangerous form of oppression by which federal judges, in contempt of the laws of the states and rights of citizens, become at once legislators, judges and executioners; and we approve the bill passed at the last session of the United States senate and now pending in the house relative to contents in federal courts and providing for trials by jury in certain cases of contempt.

No discrimination should be indulged by the government of the United States in favor of any of its debtors. We approve of the refusal of the Fifty-third congress to pass the Pacific railroad funding bill, and denounce the effort of the present Republican congress to enact a similar measure.

Recognizing the just claims of deserving Union soldiers we heartily endorse the rule of the present commissioner of pensions that no names shall be arbitrarily dropped from the pension roll and the fact of enlistment and service should be deemed conclusive evidence against disease or disability before enlistment.

We favor the admission of the territories of New Mexico and Arizona into the Union as states and we favor the early admission of all the territories that have the necessary population and resources to entitle them to statehood, and while they remain territories, we hold that the officials appointed to administer the government of any territory, together with the District of Columbia and Alaska, should be bonafide residents of the territory or district in which their duties are to be performed. The Democratic party believes in home rule, and that all public lands of the United States should be applied to the establishment of free homes for American citizens.

We recommend that the territory of Alaska be granted a delegate in congress, and that the general land and timber laws of the United States be extended to said territory.

We extend our sympathy to the people of Cuba in their heroic struggle for liberty and independence.

We are opposed to life tenure in the public service. We favor appointments based upon merits, fixed terms of office, and such an administration of the civil service laws as will afford equal opportunities to all citizens of ascertained fitness.

We declare it to be the unwritten law of this republic, established by custom and usage of 100 years and sanctioned by the examples of the greatest and wisest of those who founded and have maintained our government, that no man should be eligible for a third term of the presidential office.

The federal government should care for and improve the Mississippi river, and other great waterways of the republic, as well as to secure for the interior states easy and cheap transportation to tidewater. When any waterway of the republic is of sufficient importance to demand aid of the government, such aid should be extended upon a definite plan of continuous work until permanent improvement is secured.

Confiding in the justice of our cause and the necessity of its success at the polls, we submit the foregoing declaration of principles and purposes to the considerate judgment of the American people. We invite the support of all citizens who approve them, and who desire to have them made effective through legislation for the relief of the people and the restoration of the country's prosperity.

Spain May Demand Indemnity.

HAVANA, July 9.—The Diarior de la Marina has published an editorial maintaining that Spain is able to demand from the United States indemnity for the alleged permitting of filibustering expeditions to leave the United States for Cuba. It holds that the Spanish government ought not to allow naturalized Americans to reside in Cuba.

To Lay a New Cable.

BERLIN, July 9.—A German submarine cable company has been formed to lay a cable from Germany to Spain and thence to the United States.

Repairing a Steeple.

The steeple of the United Presbyterian church is being repaired, and several defective portions of the roof of the church remedied.

TEXT OF PLATFORM.

CONTINUED FROM THIRD PAGE.

duction in the number of useless offices, the salaries of which drain the substance of the people.

We denounce arbitrary interference by federal authorities in local affairs as a violation of the constitution of the United States and a crime against free institutions, and we especially object to government by injunction as a new and highly dangerous form of oppression by which federal judges, in contempt of the laws of the states and rights of citizens, become at once legislators, judges and executioners; and we approve the bill passed at the last session of the United States senate and now pending in the house relative to contempt in federal courts and providing for trials by jury in certain cases of contempt.

No discrimination should be indulged by the government of the United States in favor of any of its debtors. We approve of the refusal of the Fifty-third congress to pass the Pacific railroad funding bill and denounce the effort of the present Republican congress to enact a similar measure.

Recognizing the just claims of deserving Union soldiers, we heartily endorse the rule of the present commissioner of pensions that no names shall be arbitrarily dropped from the pension roll and the fact of enlistment and service should be deemed conclusive evidence against disease or disability before enlistment.

We favor the admission of the territories of New Mexico and Arizona into the Union as states and we favor the early admission of all the territories that have the necessary population and resources to entitle them to statehood, and while they remain territories, we hold that the officials appointed to administer the government of any territory, together with the District of Columbia and Alaska, should be bonafide residents of the territory or district in which their duties are to be performed. The Democratic party believes in home rule, and that all public lands of the United States should be applied to the establishment of free homes for American citizens.

We recommend that the territory of Alaska be granted a delegate in congress, and that the general land and timber laws of the United States be extended to said territory.

We extend our sympathy to the people of Cuba in their heroic struggle for liberty and independence.

We are opposed to life tenure in the public service. We favor appointments based upon merits, fixed terms of office, and such an administration of the civil service laws as will afford equal opportunities to all citizens of ascertained fitness. We declare it to be the unwritten law of this republic, established by custom and usage of 100 years and sanctioned by the examples of the greatest and wisest of those who founded and have maintained our government, that no man should be eligible for a third term of the presidential office.

The federal government should care for and improve the Mississippi river and other great waterways of the republic, so as to secure for the interior states easy and cheap transportation to tidewater. When any waterway of the republic is of sufficient importance to demand aid of the government, such aid should be extended upon a definite plan of continuous work until permanent improvement is secured.

Confiding in the justice of our cause and the necessity of its success at the polls, we submit the foregoing declaration of principles and purposes to the considerate judgment of the American people. We invite the support of all citizens who approve them, and who desire to have them made effective through legislation for the relief of the people and the restoration of the country's prosperity.

Spain May Demand Indemnity.

HAVANA, July 9.—The Diariol de la Marina has published an editorial maintaining that Spain is able to demand from the United States indemnity for the alleged permitting of filibustering expeditions to leave the United States for Cuba. It holds that the Spanish government ought not to allow naturalized Americans to reside in Cuba.

To Lay a New Cable.

BERLIN, July 9.—A German submarine cable company has been formed to lay a cable from Germany to Spain and thence to the United States.

Repairing a Steeple.

The steeple of the United Presbyterian church is being repaired, and several defective portions of the roof of the church remedied.
